

iRobot Roomba 980 Front Caster Wheel Replacement

We will be able to remove the front wheel so that it may be cleaned.

Written By: Ernesto Rodriguez Romero

INTRODUCTION

The front caster wheel gets dirty quickly so its important to take it out and clean it regularly.

TOOLS:

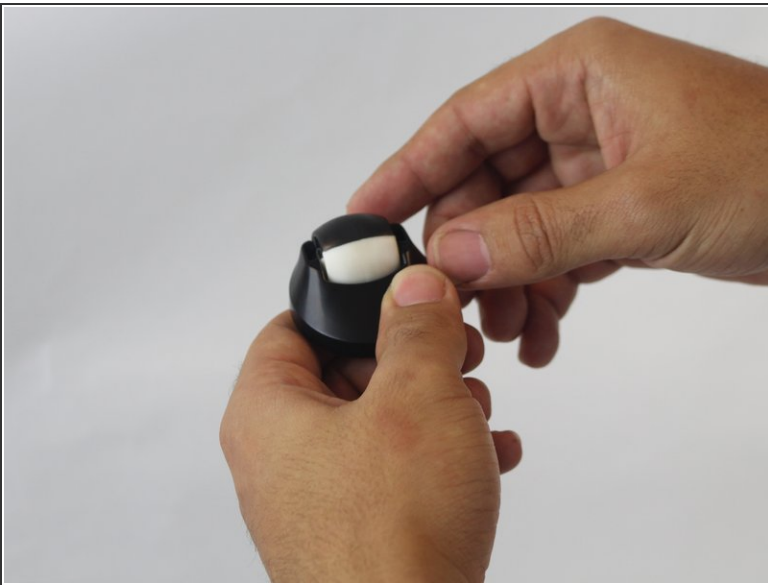

- [iFixit Opening Tools](#) (1)
-

Step 1 — Front Caster Wheel

- Insert the opening tool into the space of the front wheel.
- Pull the wheel mount upwards.

Step 2

- Use your finger to push the wheel from the bottom while holding the wheel mount in place.

To reassemble your device, follow these instructions in reverse order.
