

# Braun Series 7 790cc-7 Battery Replacement

For this guide, we are writing a guide about replacing the battery in the Braun Series 7 790cc-7.

Written By: Alex Speer

## INTRODUCTION

The removal of the battery is a rather easy process, but very critical when thinking about the use of this razor. Many people will use an electric razor until it dies for the first time, but rather than replacing the battery, they will just buy another electric razor. This is an expensive habit to get into when one can just replace the battery and use the same razor for an extended period of time. With the use of this Replacement Guide, one can easily change the battery in the razor as many times as they would like.

### TOOLS:

- [Spudger](#) (1)
- [TR8 Torx Security Screwdriver](#) (1)

### PARTS:

- [Braun Series 7 790cc-7 Battery](#) (1)

## Step 1 — Battery

- Use a spudger to remove the rubber piece on the back of the razor.

## Step 2

- Use a Torx T8 to remove (4) 10 mm screws from housing.

### Step 3

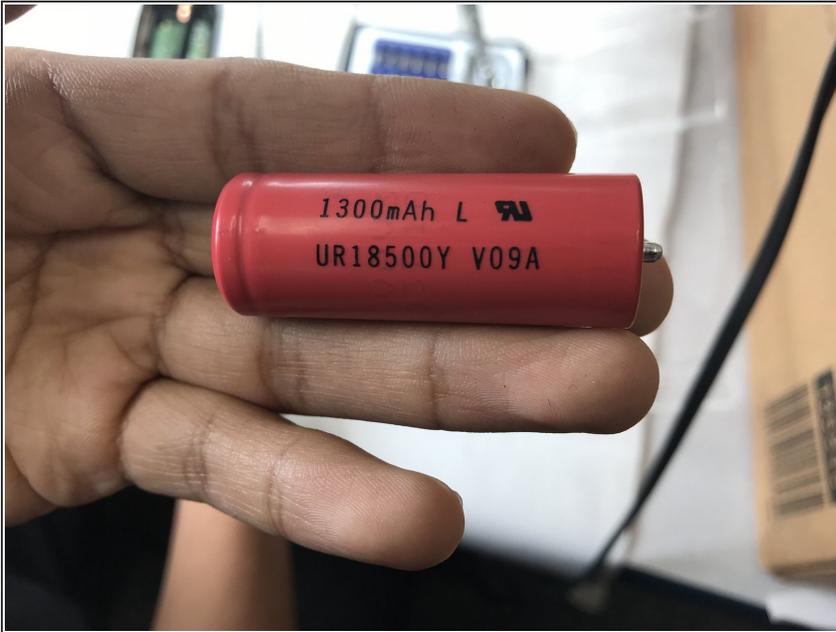

- Remove the rear cover from the device.

### Step 4

- Remove the battery from the holster inside the device.

## Step 5

- Replace the battery with a new 1300 mAh Sanyo (UR18500Y) battery.
- Be sure to insert the battery the correct way.

To reassemble your device, follow these instructions in reverse order.
