

Vauxhall Gear Shift Gaiter Replacement

Quick and easy guide to replacing your gear shift gaiter

Written By: Andrew Armstrong

PARTS:

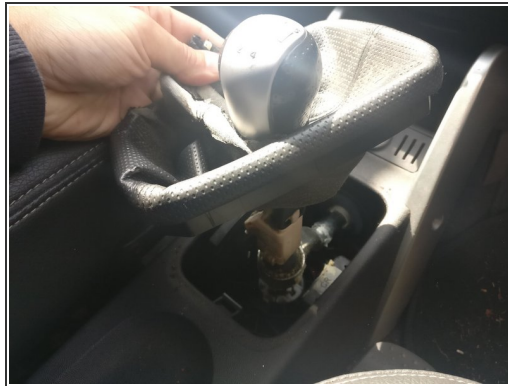

- [Gear Shift Gaiter](#) (1)
-

Step 1 — Examine existing gaiter

- Examine existing gaiter and take note of how its installed. A quick snap with your camera phone is helpful!

Step 2 — Remove existing gaiter

- Carefully cut through the existing cable tie or chord
- Pull the gaiter up over the gear knob

Step 3 — Fit New Gaiter

- Place the new gaiter over the gear knob upside down
- Ensure the cable tip is in the correct position (usually towards the rear)
- Locate the tie retaining groove
- Tighten the tie securely and trim excess

Step 4 — Job Finished!

- Enjoy your shiny new gaiter!
- Perhaps its time to replace the handbrake one? :)

Its quick and easy to refresh your interior by replacing a torn or worn gaiter.
