Step 1 — Battery

- Flip the laptop over so the bottom of the device is facing upward.

Step 2

- Unscrew the 10 5mm Phillips screws, located on the bottom side of the notebook using the PH1 bit and the Magnetic Driver.

Step 3

- Pry open the bottom cover of the notebook with the plastic spudger tools. Slide a thin tool along the edges without ports to pop open the latches.
⚠️ Be careful not to bend or crack the plastic back cover.
Step 4

- Remove the 1" yellow tape on top of the battery. This piece of tape is holding down the battery connection cable.
Step 5

- Lightly grip the battery on the two longest sides. Gently pull up until the adhesive on the notebook is separated from the battery.
Step 6

- Carefully unplug the battery from the device motherboard.

Step 7 — Network Card

- Peel off the black antenna stuck to the card.

Step 8

- Carefully use the PH1 screw head to unscrew the one 3mm screw on the network card found near the hinge at the top.

Step 9

● Remove the network card.

To reassemble your device, follow these instructions in reverse order.
