MacBook Pro 15" Unibody Mid 2012 Disable 2nd GPU to prevent white screen or green stripes during boot process.

Written By: Cherry

Step 1 — MacBook Pro 15" Unibody Mid 2012 Disable 2nd GPU to prevent white screen or green stripes during boot process.

- 1) Boot Macbook with keys pressed: Command (plus) S

- 2) Wait for active command line

- 3) Enter these 3 commands:
  - nvram fa4ce28d-b62f-4c99-9cc3-6815686e30f9:gpu-power-prefs=%01%00%00%00

  - nvram boot-args="-v"

  - reboot

- System should boot without issues.
