# How to restore a shrunken sweater

Restore a shrunken sweater into original form factor.

Written By: Zhou Zhou

## INTRODUCTION

This iFixit project will walk you through on how to restore a shrunken sweater to original fit and finish in few easy steps.

## TOOLS:

- Baby Shampoo (1)
- Washbasin (1)
- Bucket (1)
- Bath towel (1)

## Step 1 — How to restore a shrunken sweater

- Add 2/3 full of water into the washbasin.

- Add **20 ml** of Baby Shampoo into the washbasin.

- (i) The volume of water needed depends on the size of the sweater. The larger the sweater, the more water needed.

## Step 2

- **Soak** the sweater into the washbasin with soapy water for 15 mins.

## Step 3

- **Take out** the sweater from the washbasin with <u>soapy water</u>.

- **Remove** the sweater to the bucket filled with <u>fresh warm water.</u>

- **Rinse** the sweater <u>thoroughly</u>.

## Step 4

- **Take out** the sweater from the bucket.

- **Wring** the clothes gently to get excessive water out.

## Step 5

- **Place** the sweater **flat** in the center of the <u>bath towel</u>.

## Step 6

- **Roll** while **wringing** the towel together with the sweater in order to **dry** the sweater.

- **Redo** the process for <u>a couple times</u> until the sweater is dry to the touch.

- **Unfold** the towel and **take out** the sweater

- **Spread out** the sweater flat and let it **dry**.

To reassemble your device, follow these instructions in reverse order.
