

HP Pavilion 15-AB153NR Battery Replacement

This guide will teach you to remove and replace the battery.

Written By: Nicole Vachon

INTRODUCTION

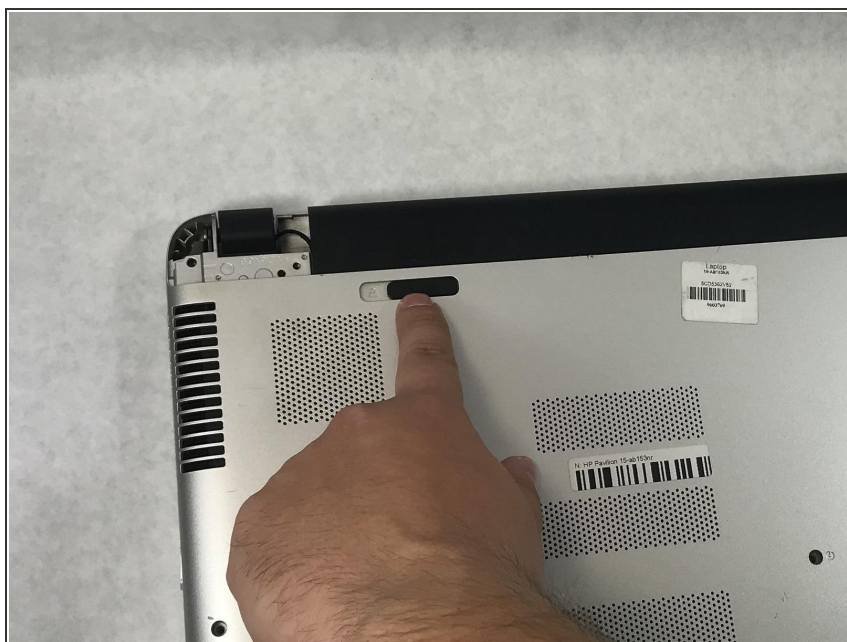

This replacement will not require the use of any tools. It can be completed easily and in a short amount of time. You will need a clear work surface. Replacing the battery can often solve common power issues.

PARTS:

- [HP KI04 Replacement Laptop Battery](#) (1)
-

Step 1 — Battery

- ❗ Ensure computer is turned off and unplugged.
- Slide the battery lock latch on the left to unlock. Slide from left to right to unlock.

Step 2

- Slide the battery release latch on the right with continuous force from right to left.
- Once battery pops, you may release latch.

Step 3

- Grab the battery, rotating upwards and away from you. This will remove the battery.

To reassemble your device, follow these instructions in reverse order.
