INTRODUCTION

You need to open or replace your Dell XPS 13 9380 back panel, this guide is for you!

TOOLS:

- Mako Driver Kit - 64 Precision Bits (1)
- Metal Spudger (1)

This document was generated on 2021-09-13 05:23:54 PM (MST).

Step 1 — Remove the back panel

- ⓘ Before you begin, be sure to turn off your laptop and unplug it from the outlet.

- Use a Torx T5 driver to unscrew the eight screws securing the back panel.

- Use a spudger to pry up and loosen the back panel.

- Lift the back panel up slightly from the non-hinged edge.

- Pull the back panel away from the hinged edge, wiggling it back and forth to loosen the clips.

- When the back panel clips are free, remove the back panel.

To reassemble your device, follow the instructions in reverse order.
