Step 1 — Battery

- Locate the small slit on the bottom edge of the device between the back and front cases.
- Pop the back case off by inserting your finger and pulling the case away from the phone.
- ⓘ If necessary (it shouldn't be), use the Plastic Opening Tools to pry the back case off.

Step 2

- Remove the battery by pushing the bottom edge of the battery up and away from the phone
- ⓘ If you would prefer, you may use the Plastic Opening Tools for this step as well.

To reassemble your device, follow these instructions in reverse order.
