Sony Mavica MVC-CD1000 lens Replacement
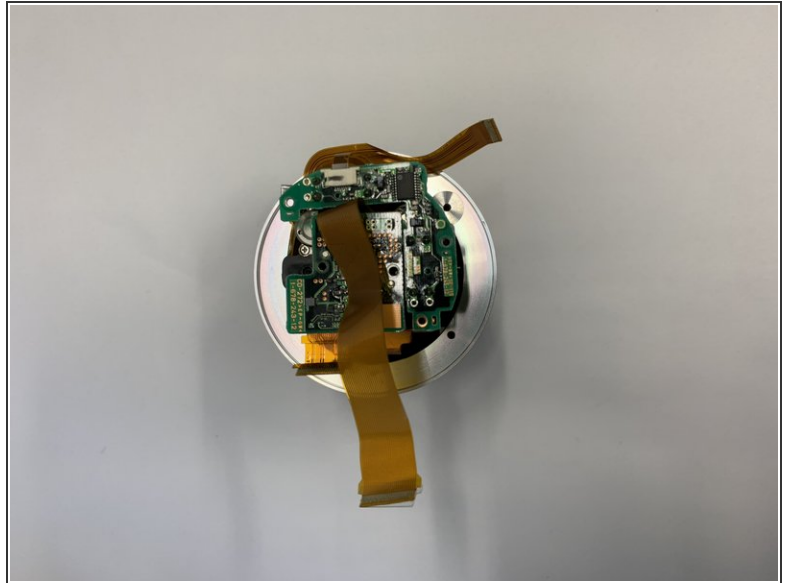

Written By: YuFan Ma

INTRODUCTION

This guide will show you how to replace the lens on your device

This document was generated on 2022-10-24 11:05:40 PM (MST).

Step 1 — lens

- Remove the shell of base from the shell of lens

Step 2

- The outer casing of the lens consists of two outer casings that are secured by an end cap that connects them. In this part we take this end cap
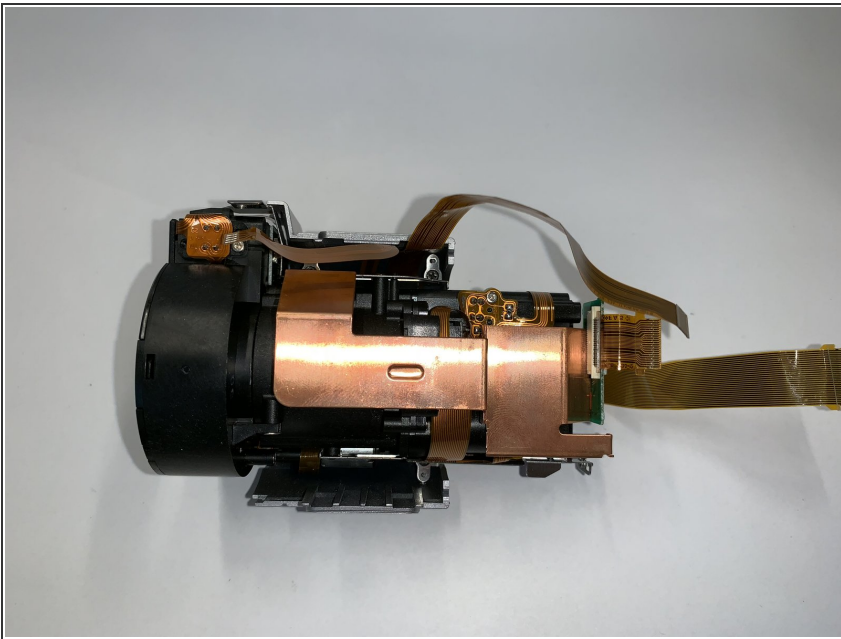

Step 3

- There is also a front end cover at the front end of the lens. In this step we take it away.

Step 4

- Place the lens section horizontally on the workbench and pry open the top cover of the lens with some effort

Step 5

- After removing the shell of lens we can replace the inside part.

When reassembling your device, follow the instructions in reverse order.
