

Lenovo Touch Y70-70 Touchpad Replacement

Replacement guide for Lenovo Touch Y70-70 touchpad.

Written By: Mohammed Motorwala

INTRODUCTION

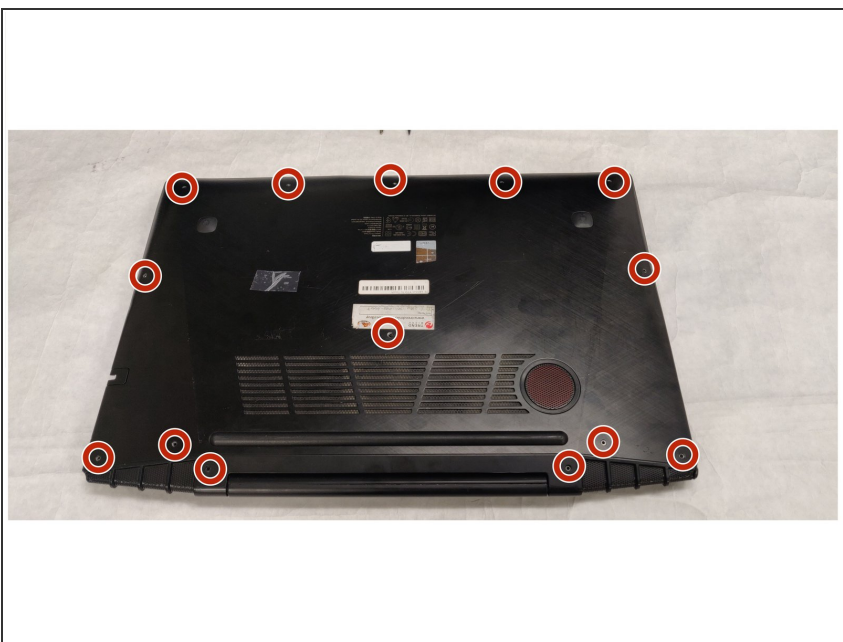

This is a guide for the removal of the touchpad in the Lenovo Touch Y70-70. The steps below will show a step by step process of how to take the laptop apart in a reasonable amount of time and also put it back together. The touchpad might need to be replaced in case of damage in the form of a scratch.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
 - [Small Plastic Spudger](#) (1)
-

Step 1 — Touchpad

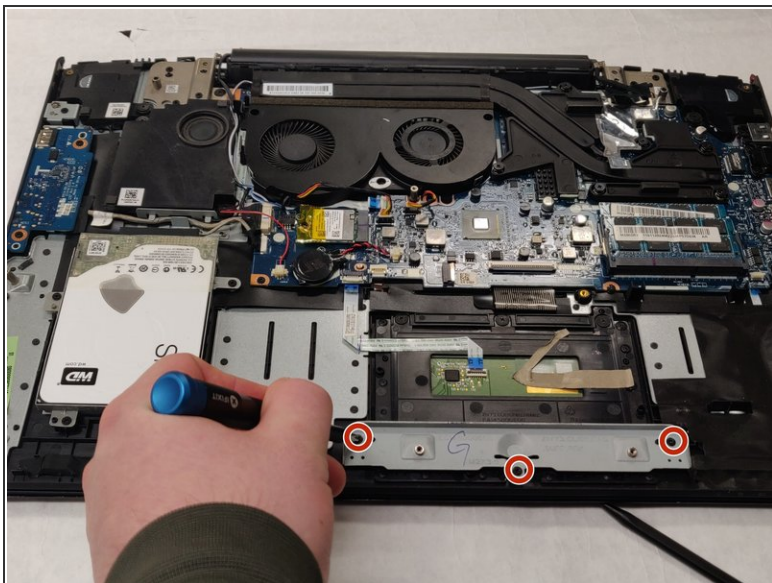

- Flip the device so that the back cover is facing you.
- Using the Phillips #0 screwdriver, remove 14 screws from the back of the device.

Step 2

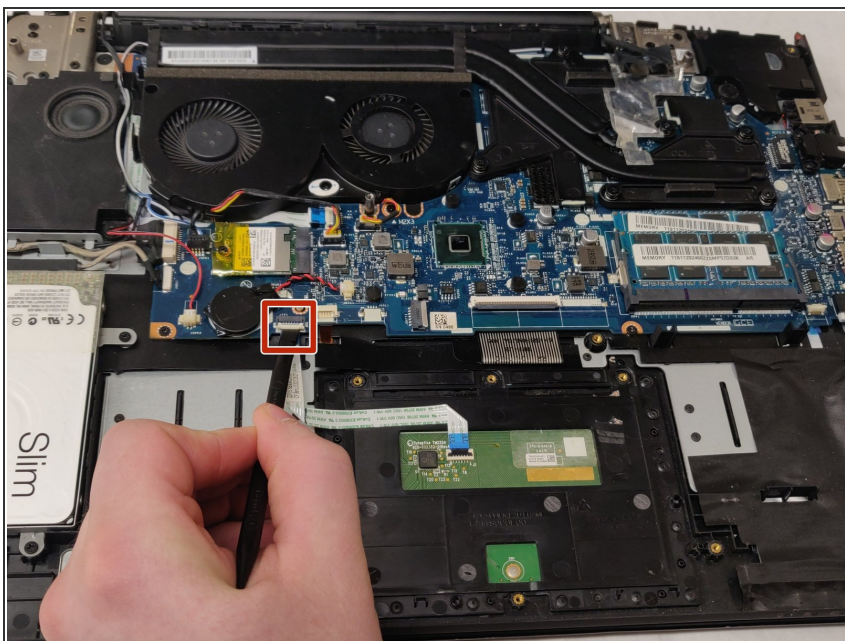

- Using the Phillips #0 screwdriver, remove the three screws holding down the battery.

Step 3

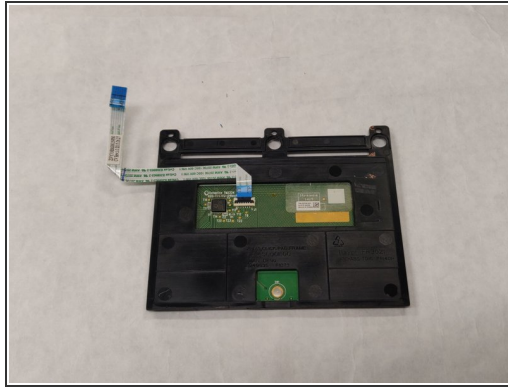

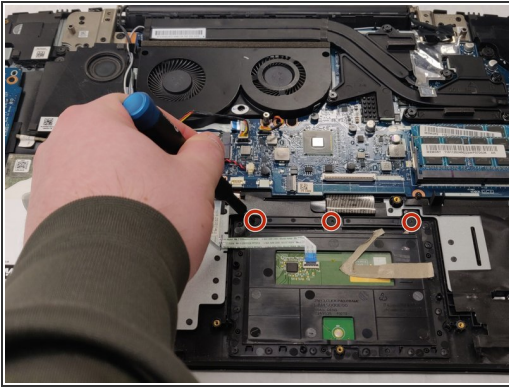

- Using the Phillips #0 screwdriver, remove the metal reinforcement by removing the three screws.

Step 4

- Detach the cable connecting the touchpad to the motherboard.

Step 5

- Using the Phillips #0 screwdriver, remove the three screws holding down the touchpad.
- Using the spudger, remove the touchpad from the laptop.

To reassemble your device, follow these instructions in reverse order.
