

Audio Technica ATH-AD500 Speaker Assembly Replacement

This guide serves as a prerequisite guide for many of the other installation guides.

Written By: Melanie Reis

INTRODUCTION

This guide will help you disassemble the headphones.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Speaker Assembly

- Remove the ear pads by peeling them away from the grill.

Step 2

- Remove all four 1cm screws on the inside of the headphone using a #1 Phillips head.

Step 3

- Remove the speaker from the grill by pulling it out.
- ⚠ Remove the speaker carefully so you do not rip the wires out.

To reassemble your device, follow these instructions in reverse order.
