## INTRODUCTION

Use this guide to create an invisible stitch in a torn jeans.

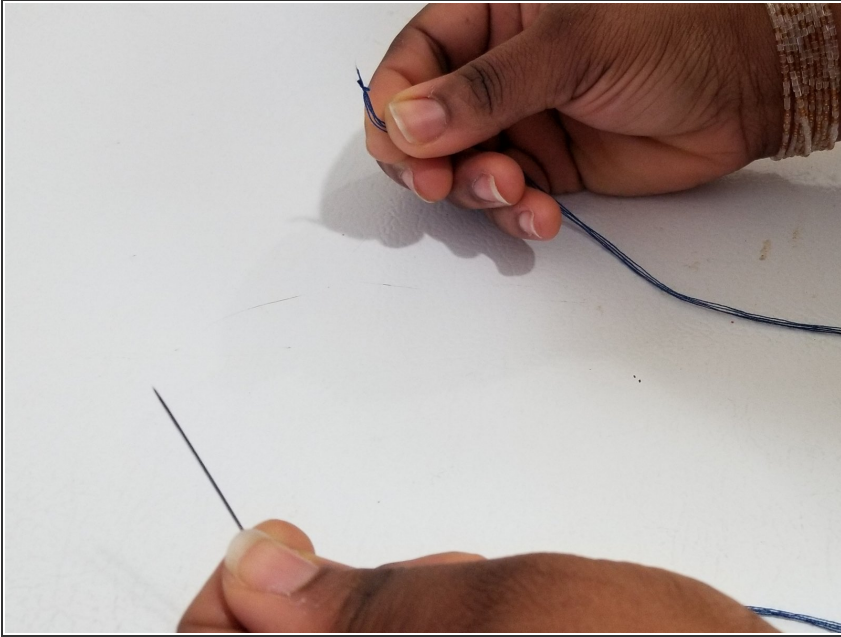

An invisible stitch is a hidden stitch for sewing the edges in a torn fabric. This technique can be used on most materials but this guide will be focusing on jeans. Sewing an invisible stitch is quite easy to do and does not need any special skills. The stitch is almost fully invisible and creates a professional looking finished stitch to the jeans. To successfully create an invisible stitch, follow the instructions below.

## Step 1 — How to Sew an Invisible Stitch in Torn Jeans

- Insert the thread through the needle and knot the end of the thread.

 Caution: Handle the needle with care to avoid any injuries.

## Step 2

- Insert the needle from the inside of the jeans to hide the knot of the thread.

### Step 3

- Insert the needle to the opposite side of the tear creating a horizontal line with the thread.

### Step 4

- Pull out the needle from the inside of the jeans.
- Then move the needle to the opposite end of the tear.
- ⓘ This creates another horizontal line with the thread over the tear.

## Step 5

- Repeat these steps of creating horizontal lines with the thread until you reach the end of the tear.

## Step 6

- Push the thread tail back into the seam of the jeans to hide it.

## Step 7

- Pull the thread from the inside until the horizontal lines of stitching are completely invisible.

 Pulling the thread tightens the stitching and makes it invisible.

## Step 8

- Knot the thread from inside and cut off the excess.
