Toshiba Portege M300 Wireless Card Replacement

This will demonstrate how to replace a wireless card in a Toshiba Portege M300.

Written By: Alison Wendt

INTRODUCTION

This guide will go through the steps needed to install a new wireless card.

🔧 TOOLS:

- iFixit Opening Tool (1)
- Phillips #0 Screwdriver (1)
- Phillips #1 Screwdriver (1)

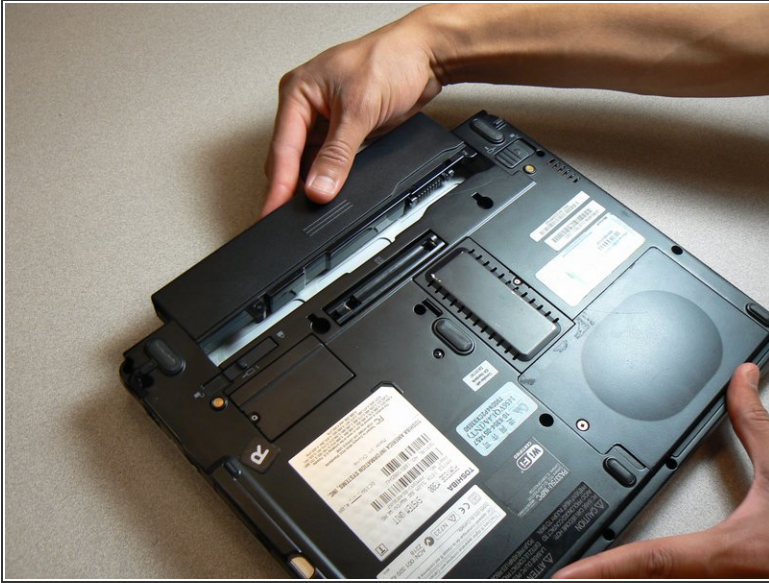

Step 1 — Battery

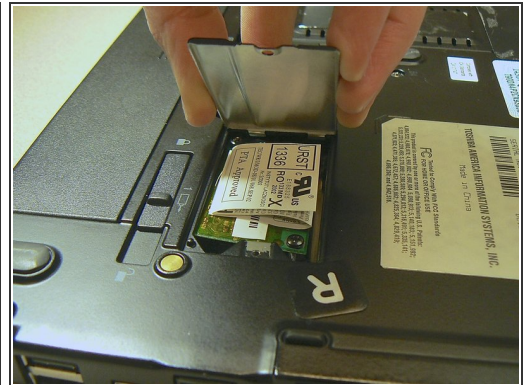

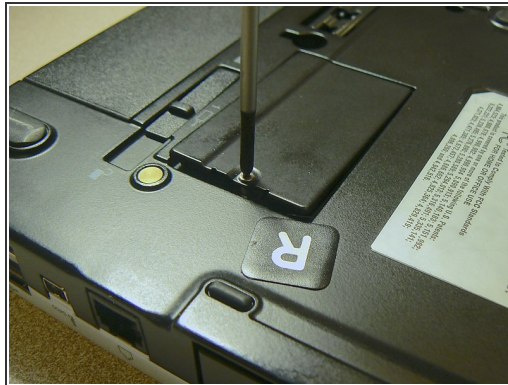

- Turn the computer over onto its back.

Step 2

- Slide the lock on the left side to the unlock position.

- Slide the lock on the right side to the unlock position until there is a clicking sound.

Step 3

- Remove the battery by sliding it away from the laptop.

- (i) Make sure the two locks from the previous step are in the unlocked position while sliding the battery away.
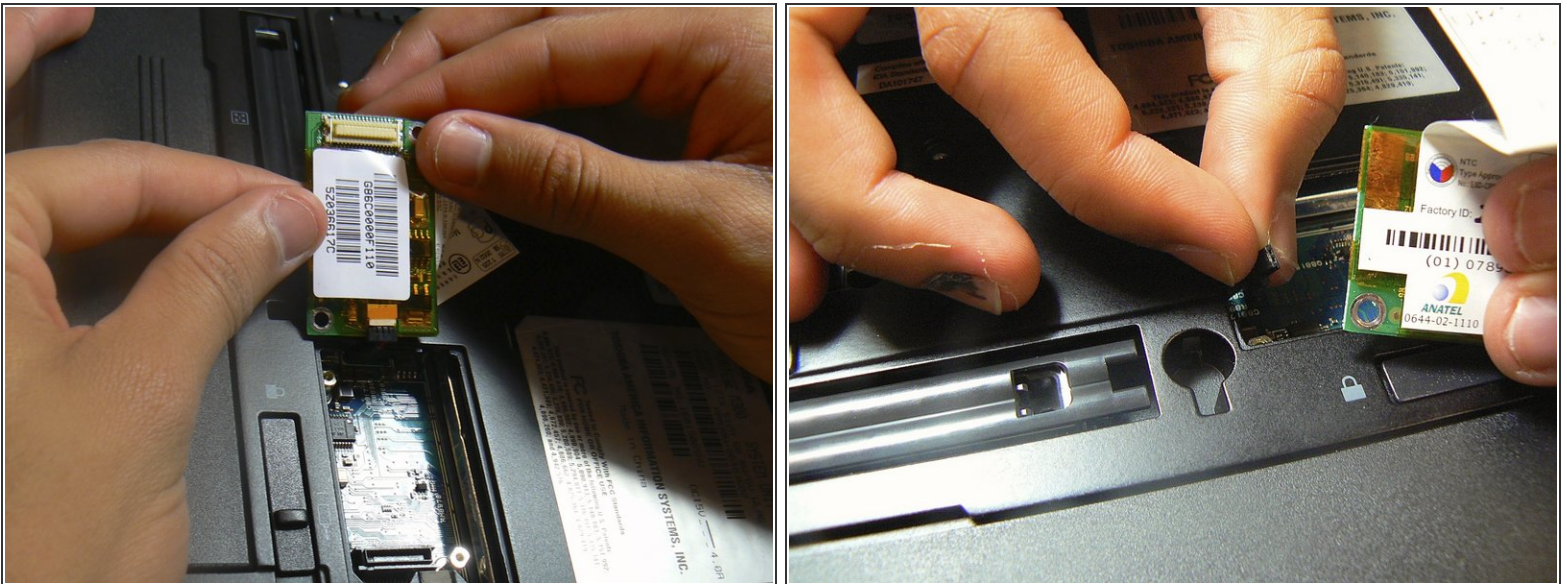

Step 4 — Wireless Card

- Turn the computer onto the back.

- Remove the Phillips #0 screw that secures the cover to the rest of the device.

- One 5.1 mm coarse thread screw.

- Pull the cover forward to release it.

Step 5

- Use a Phillips #1 screwdriver to remove the two screws on opposite corners of the wireless card.

- Two 4.0 mm coarse thread screws.

- Use a plastic opening tool to gently lift the wireless card out while leaving the wire connected.

Step 6

- Hold the edges of the wireless card and carefully disconnect the black 3 pin connector.

To reassemble your device, follow these instructions in reverse order.
