INTRODUCTION

How to replace the battery of a Dell XPS 13 9360 laptop. The images and information in this guide were taken from this computer's service manual.

TOOLS:

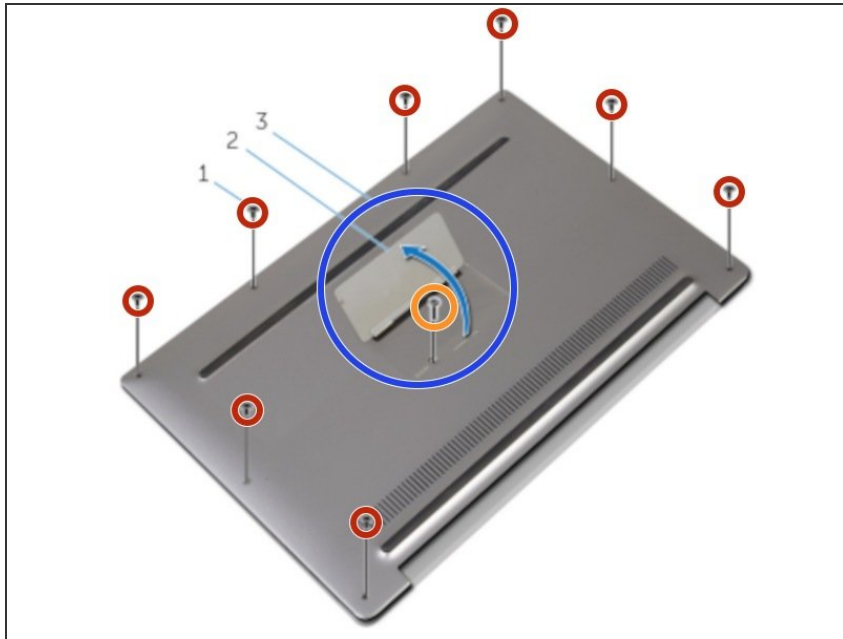

- [Phillips #0 Screwdriver](#) (1)
- [T5 Torx Screwdriver](#) (1)
- [Spudger](#) (1)

PARTS:

- [Dell XPS 13 9360 Replacement Battery](#) (1)

Step 1 — Remove the base cover screws

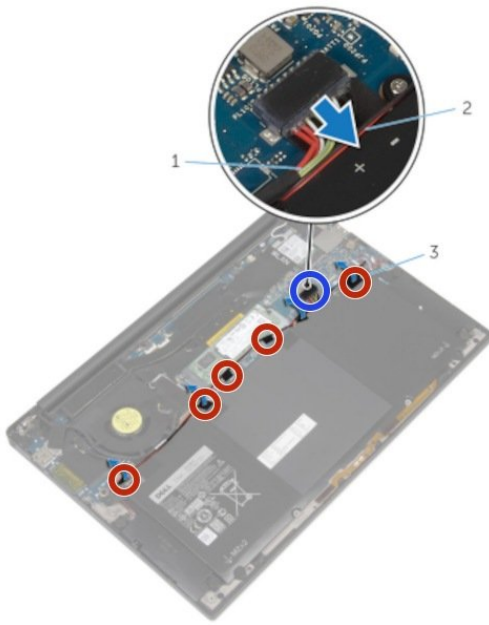

- Using your fingertips, open the system badge.
- Remove the screw (M1.6x6) that secures the base cover to the palm-rest assembly.
- Remove the eight screws (M2x3, Torx) that secure the base cover to the palmrest assembly.

Step 2 — Remove the base cover

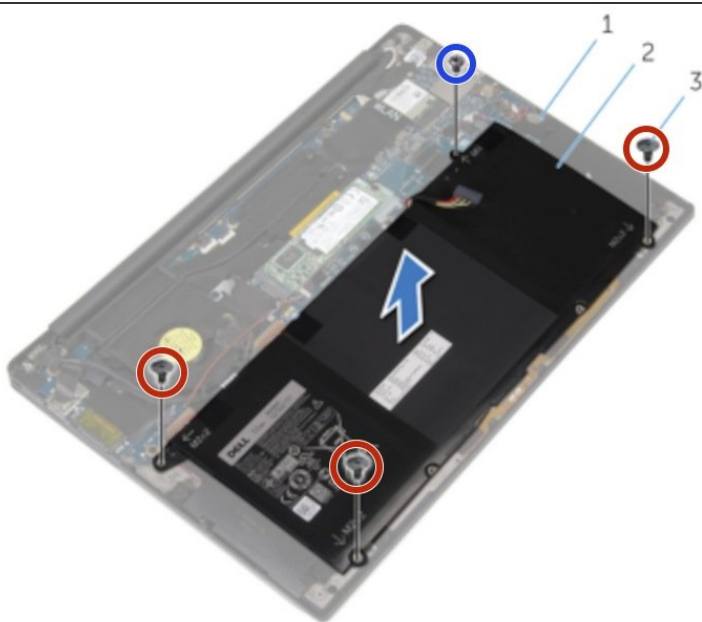

- Starting from the back of the computer, pry up the base cover using a plastic scribe (spudger).
- Lift the base cover off the palm-rest assembly.

Step 3 — Prepare the battery for removal

- Disconnect the battery cable from the system board.
- Peel off the tape that secures the speaker cable to the battery.

Step 4 — Remove the battery

- Remove the screw (M1.6x4) that secures the battery to the palm-rest assembly.
- Remove the three screws (M2x2) that secure the battery to the palm-rest assembly.
- Lift the battery off the palm-rest assembly.
- Turn the computer over, open the display, and press the power button for about 5 seconds to ground the computer.

To replace the battery & reassemble your device, follow these instructions in reverse order.
