

Opening the Device

This guide shows how to get the clock open

Written By: Nicholas Roppolo

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
-

Step 1 — Opening the Device

- Flip device upside down and remove the 4 foam pads at each corner.

Step 2

- Remove the 4 screws using a Philips Screwdriver.

Step 3

- Gently lift the case off of the body and set down in a safe place.

To reassemble your device, follow these instructions in reverse order.
