INTRODUCTION

This guide will show you how to replace the battery in an LG Encore GT550. To complete this guide, no tools are required.

TOOLS:

Spudger (spatule antistatique) (1)

Step 1 — Battery

- Push up on the back cover to slide it off and reveal the battery underneath.

Step 2

- Use your nail or a spudger to gently pry the battery out from the bottom of the phone.

Step 3

- ★ Insert the new battery in the same orientation as the old battery.
- i The LG logo should be in the top right corner when placed correctly.

To reassemble your device, follow these instructions in reverse order.
