---

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
  - [Metal Spudger](#) (1)
-

## Step 1 — Laser Unit / Deck replacement

- Turn off the console and disconnect all cables.

## Step 2

- You must remove the warranty sticker and 4 screws.

### Step 3

- After removing HDD bay cover, you will see another 3 screw.

### Step 4

- Push there to release and remove upper back bezel.

## Step 5

- The upper front bezel is harder to remove.

## Step 6

- Remove 7 screws to release top cover.

## Step 7

- **Disconnect two flex-cables and move the Laser Unit. Remove the two screws and the small cable and then take out the Power Supply Unit.**

## Step 8

- **To release the laser unit disconnect this flex-cable.**

## Step 9

- One flex-cable, for rubbers and the metal bezel.

## Step 10

- Disconnect this flex-cable and attach it to the new spare part. Let's start assembling.

## Step 11

- **Assembling, assembling...**

## Step 12

- **Let's test the device before fully assembling it.**

To reassemble your device, follow these instructions in reverse order.
