🔧 TOOLS:

T8 Torx Security Bit Screwdriver (1)
Phillips #1 Screwdriver (1)
Metal Spudger (1)

⚙️ PARTS:

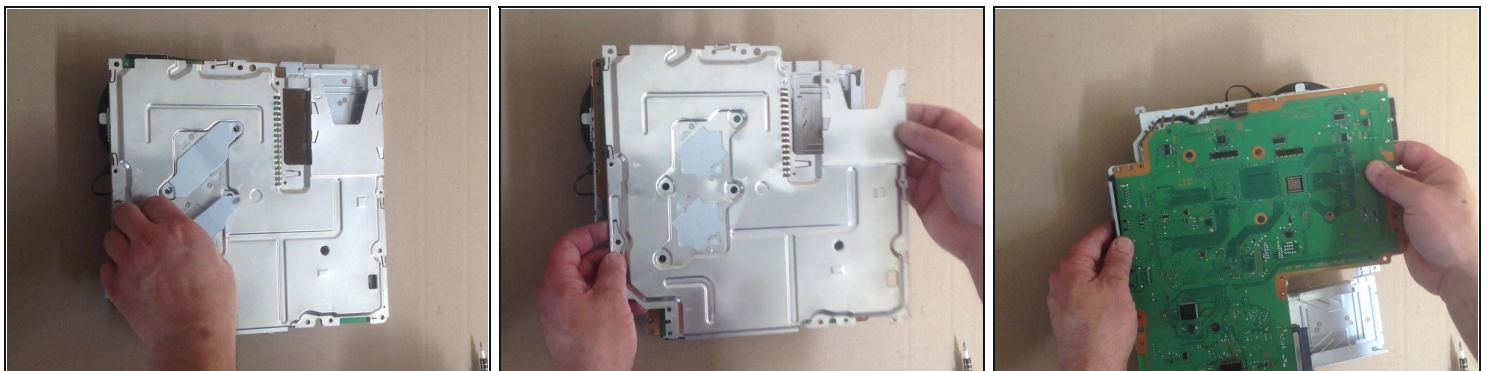

Sony PlayStation 3 Slim CECH-21xx Fan
(1)

Step 1 — Fan system

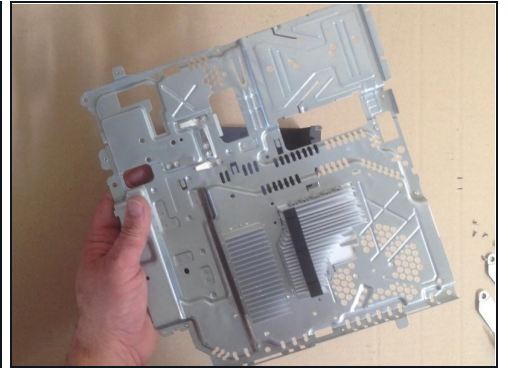

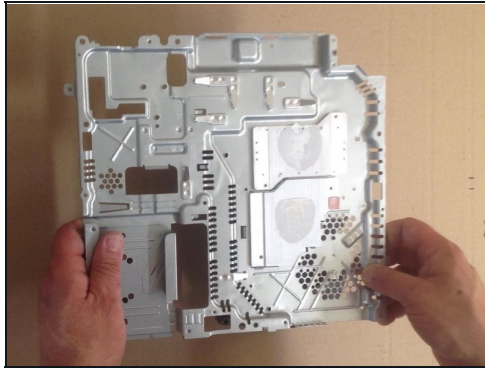

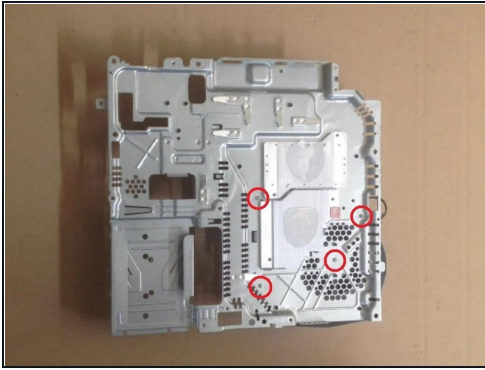

- **Disconnect the fan cable and remove the nine screws from the bottom side.**

Step 2

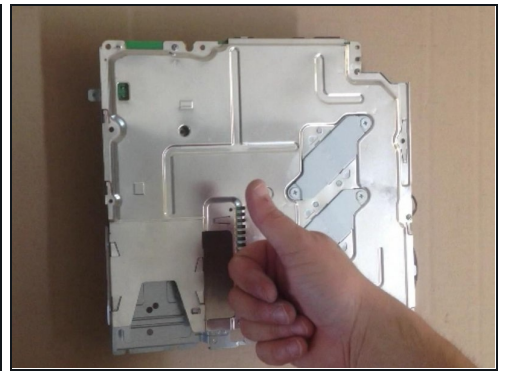

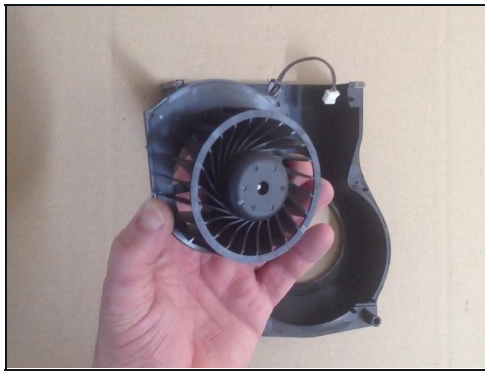

- **Remove the two heat sink clamps and bottom shield, then gently separate the motherboard off the top shield.**

Step 3

- **Remove the four Phillips screws and lift the top shield.**

Step 4

- **That's all.**

To reassemble your device, follow these instructions in reverse order.
