

Broken Display Glass

Prereq for iPad display guides showing how to tape up a broken display.

Written By: Sam Goldheart

INTRODUCTION

Prereq only

TOOLS:

- [Scotch tape](#) (1)
-

Step 1 — Broken Display Glass

- If your display glass is cracked, keep further breakage contained and prevent bodily harm during your repair by taping the glass.
- Lay overlapping strips of clear packing tape over the iPhone's display until the whole face is covered.
 - ⓘ This will keep glass shards contained and provide structural integrity when prying and lifting the display.

 Wear safety glasses to protect your eyes from any glass shaken free during the repair.

To reassemble your device, follow these instructions in reverse order.
