

# Disassembling Palm Centro Logic Board

Written By: Chelsea Barackman

---

## INTRODUCTION

This will guide you on how to disassemble the Palm Centro to get to the logic board.

---

### TOOLS:

- [iFixit Opening Tool](#) (1)
  - [T5 Torx Screwdriver](#) (1)
-

## Step 1 — Disassembling Palm Centro Battery

- Press and slide open the battery cover.

## Step 2

**⚠ Caution: Turn cell phone off before removing battery!**

- Press battery to the right.
- Then lift up battery pack to remove.

### Step 3

- Phone with battery removed

### Step 4 — Back Housing

- Remove the touchpad pen from the top left corner on the back to reveal the last of 6 screws to be removed.

## Step 5

- Lift the rubber cap at the top right to reveal the sixth screw.

**⚠ Caution:** There is a small Palm sticker under the rubber cap. Tampering with or removing this sticker will void your warranty!

- Remove the six screws using the T5 Torx screwdriver.

## Step 6

- Remove the SIM card so housing can be separated.

## Step 7

- Use a plastic pry tool to separate the bottom of the case to remove the small plastic insert.

## Step 8

- Remove the small plastic insert at the bottom of the phone.

## Step 9

- Continue with plastic pry tool all the way around the phone to remove the back housing.

## Step 10 — Logic Board

- Carefully peel back the tape holding the speaker (left) and keyboard (right) connection tabs in place.

## Step 11

- Using the plastic prying tool, lift the tabs and carefully pull the contact connections out on both sides.

**⚠ Be very careful, these electronics are delicate!**

## Step 12

- Separate the logic board from the case by lifting and pulling out the bottom.

To reassemble your device, follow these instructions in reverse order.
