INTRODUCTION

This guide will show you how to make a delicious caramel apple.

TOOLS:

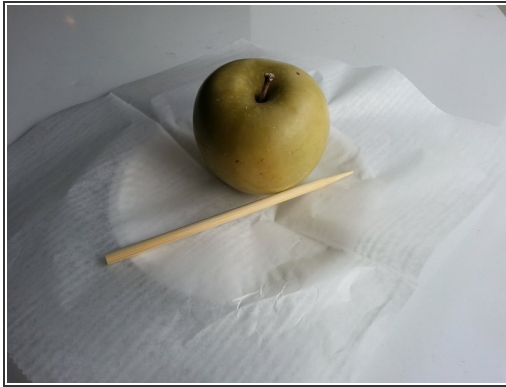

- [Spoon](#) (1)
- [Heating Pot](#) (1)

PARTS:

- [Whole Green Apple](#) (1)
- [Candy Apple Stick](#) (1)
- [Caramel](#) (1)
- [Desert Toppings](#) (1)

Step 1 — Building a Caramel Apple

- Acquire apple, stick, plate, and wax paper
- Write your name on small plate.

Step 2

- Insert the stick into the apple near the stem.

Step 3

- Dunk the apple in the hot caramel, making sure to coat the whole apple.
- Remove the apple from the caramel, twisting it in the air, allowing the caramel to cool slightly.

Step 4

- Place the slightly cooled caramel apple on the waxed paper with the stick pointed up.

Step 5

- Put a ton of toppings on the caramel apple, starting with the dry toppings, then the wet.

Step 6

- Put the caramel apple in the refrigerator for at least an hour, or leave it out to cool.

Step 7

- Once the caramel apple has cooled properly, eat it.
- Use a knife and fork if you must.

If you find yourself feeling ill after eating this delicious item, you know you've made it right.
