

Motorola Droid Pro Battery Replacement

This guide will show how to access the battery and replace it.

Written By: Peter Cakounes

INTRODUCTION

Before replacing your battery make sure you power down your device to prevent any damages or data loss. This process is very simple and should take no more than 1 minute.

PARTS:

- [Motorola BP6X Battery](#) (1)
-

Step 1 — Remove Back Cover

- Remove the back cover using the thumb tab located on the bottom of the phone.

Step 2 — Remove Battery

- Remove the old battery using the thumb tab then place the new battery in the same position.

To reassemble your device, follow these instructions in reverse order.
