

iHip Fold-Up Portable Speaker Stand Replacement

Written By: Lisa

TOOLS:

PARTS:

Phillips #0 Screwdriver (1) Fingers (1) iHip portable speaker stand (1)

Small Needle Nose Pliers (1)

Step 1 — Removing the battery case cover

 Use your fingers to slide the battery case cover off in the direction of the arrows.

Step 2 — Cleaning the battery case

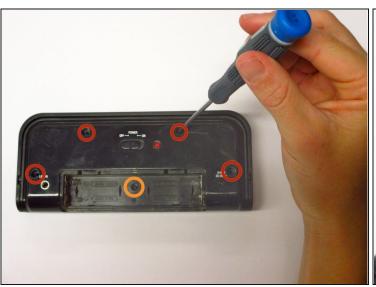

- Remove the four AAA batteries. Be sure to check your nearest battery recycling point!
- ① Use the detailing brush and a paper towel to remove any corrosion left by previous batteries.

Step 3 — Removing the screws

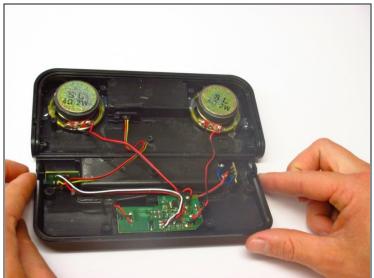

- Unscrew the four outer 1.0 mm screws with a Phillips-Head screwdriver.
 - ② Screws will be magnetized in position and will require the use of <u>tweezers</u> to be removed.
- Push down gently on the battery case cover and slide it in the direction the arrows indicate. Remove the batteries.
- Unscrew the 0.6 mm screw located in the center of the battery case.
- Keep the 1.0 mm and 0.6 mm screws separate from each other for reassembly.

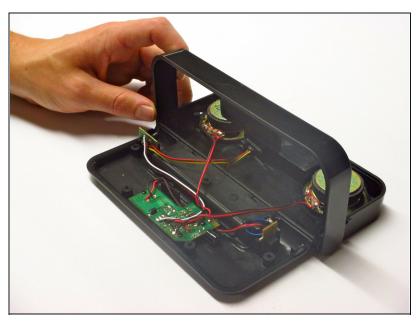

Step 4 — Removing the back cover

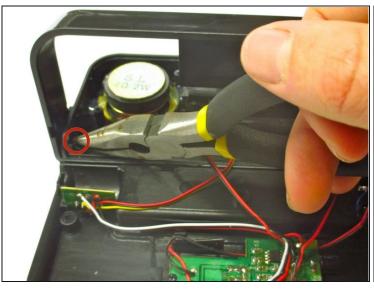

• Remove the back cover carefully; there are many wires that connect it to the device.

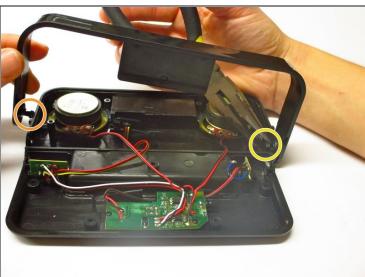

Step 5 — Positioning the Stand

- Pull the stand backwards and around the system.
- (i) Make sure the stand is positioned perpendicular to the speaker system.

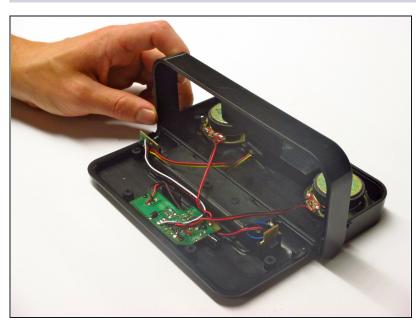

Step 6 — Removing the Stand

- Locate the two small connection points for the stand.
- Using small needle nose pliers, pinch the end of the stand toward the side of the speaker case.
- Pop the end of the stand out of the hole in the side of the speaker case.
- Repeat this step for the opposite side of the stand.

Step 7 — **Connecting The New Stand**

- 1. Position the new stand perpendicular to the speaker case.
- 2. Align the bulbs at the end of the stand with the holes in the side of the speaker case.
- 3. Gently push the bulbs into the holes of the speaker case.
- 4. Pull the stand back around the speaker system.
