

Gateway MS2285 Battery Replacement

Replace a faulty or dying battery to increase battery life for your Gateway MS2285

Written By: Chris mello

INTRODUCTION

The battery is probably the most commonly replaced part because over time battery life diminishes. Replacing the battery with a new one will rejuvenate battery life.

Step 1 — Turn Laptop Over

- Turn the laptop over so that the underside is facing towards you.

Step 2 — Unlock The Battery

- Slide the short slider one towards the unlocked lock symbol.

Step 3 — Release The Battery

- Slide the long slider towards the unlocked lock icon.
 - This slider is spring loaded and may require a little force.
 - If done correctly, a click will be heard and the battery will be slightly raised.

Step 4 — Remove The Battery

- Grasp the battery's raised end and lift upwards.

To reassemble your device, follow these instructions in reverse order.
