

# Hard Disk Drive / Solid State Drive Replacement

Written By: Marjorie

---

**TOOLS:**

[Pro Tech Toolkit](#) (1)

---

## Step 1 — Battery

- Remove all wires then flip the laptop

## Step 2

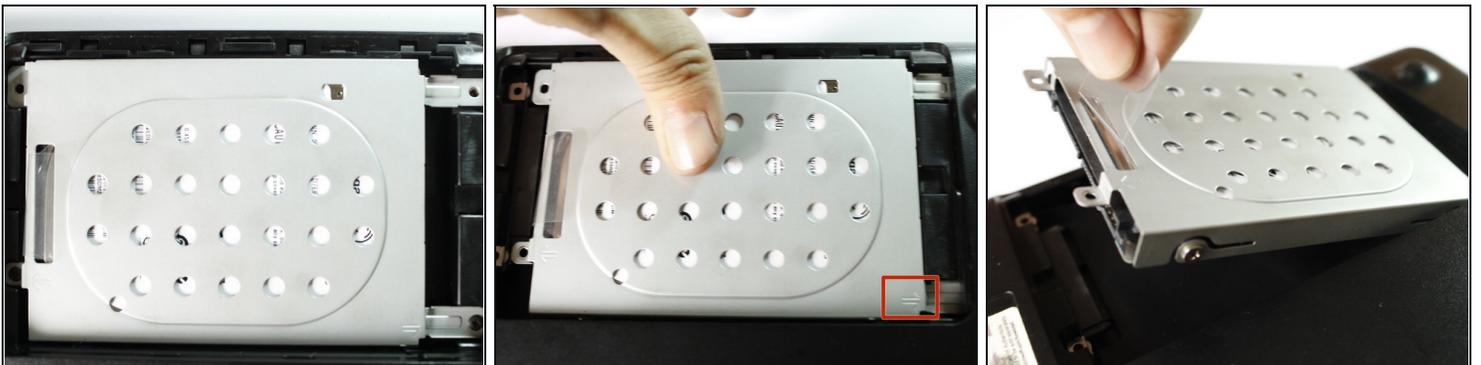

- Remove the battery

### Step 3 — Hard Disk Drive / Solid State Drive

- Remove the screws.
- Slide the HD cover outward then lift.

### Step 4

- Remove the screws.
- Slide to where the arrow points to unlock the HD.

**⚠ Hold it at the side. Never touch the circuits.**

## Step 5

- Remove the 4 screws at the side and remove the HDD/SSD

To reassemble your device, follow these instructions in reverse order.
