 **TOOLS:**

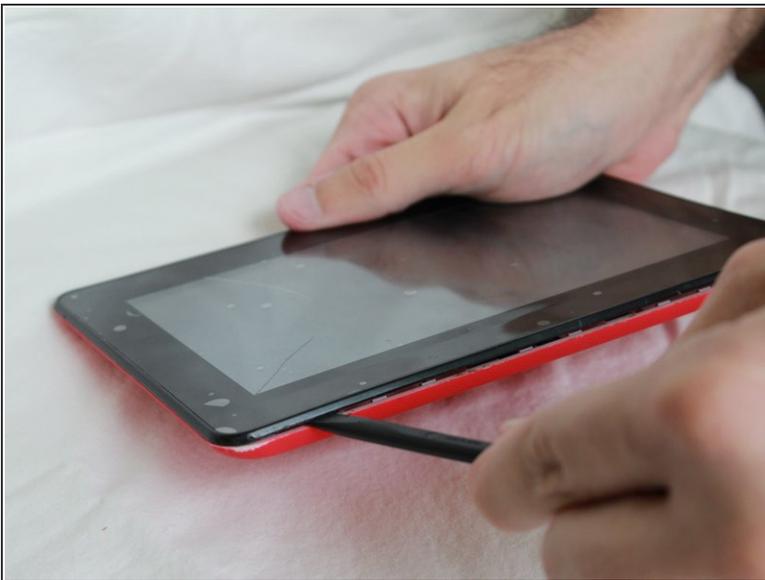

- [Spudger](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Separating Digitizer and Case

- Insert the plastic opening tool between the digitizer and the case.
- Place the spudger in the gap created by the plastic opening tool to assist in separation.

Step 2

- Slide the spudger along the perimeter of the device to fully separate the two pieces.

To reassemble your device, follow these instructions in reverse order.
