INTRODUCTION

Use this guide to replace the trackpad on your Asus X200MA.

TOOLS:

- Tweezers (1)
- Phillips #0 Screwdriver (1)
- Spudger (1)

This document was generated on 2020-11-28 04:11:22 AM (MST).
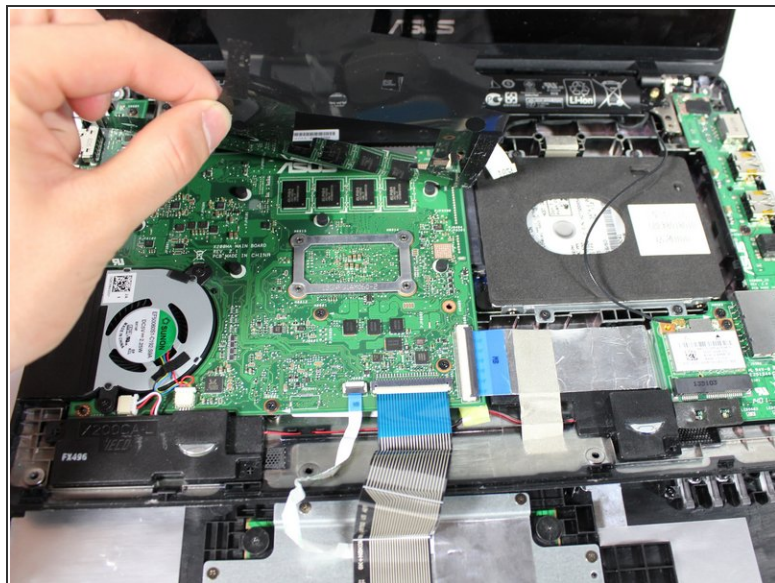

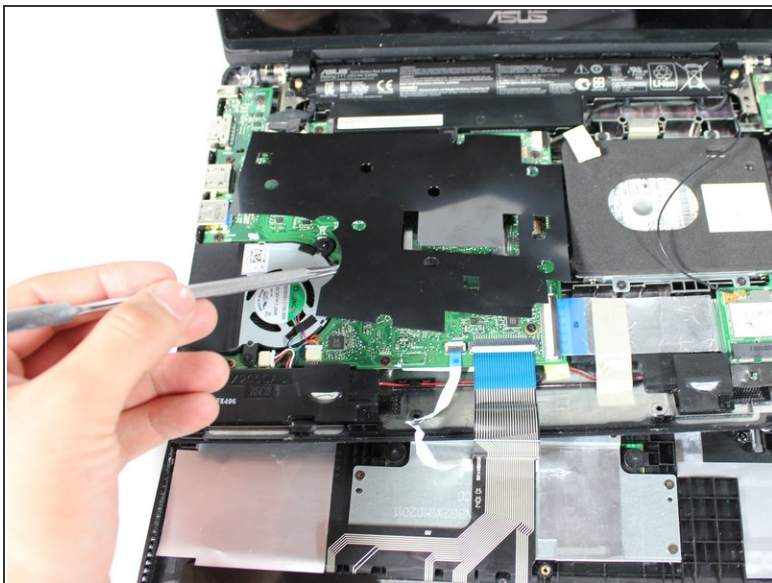

Step 1 — Back Panel

- Remove the following six screws:
  - Six 4 mm screws using a Phillips #0 screwdriver.
- Remove the following one screw:
  - One 14 mm screw using a Phillips #0 screwdriver.
- ⭐ The 14mm screw goes in the center.
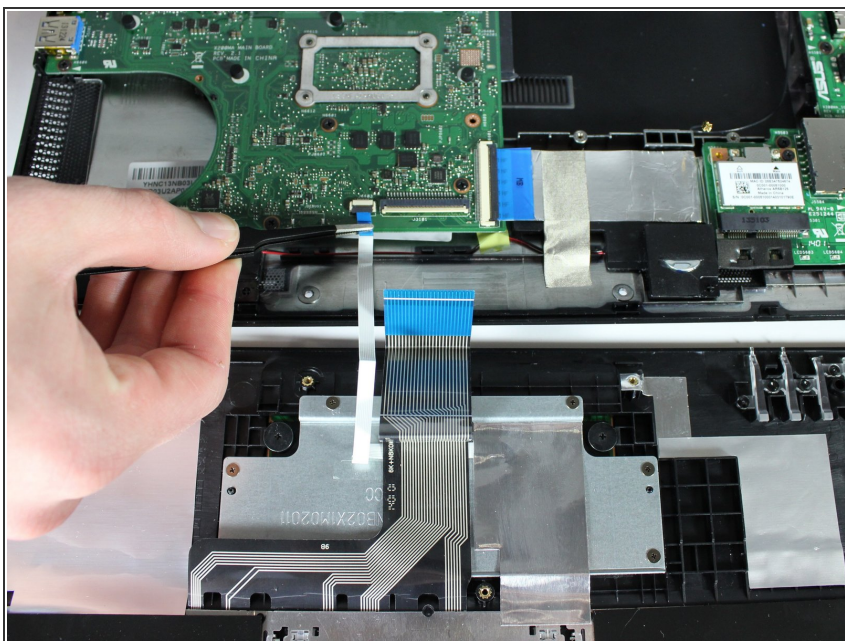

Step 2

- Use a plastic or metal spudger to separate the keyboard from the back panel and lift the keyboard out of place.
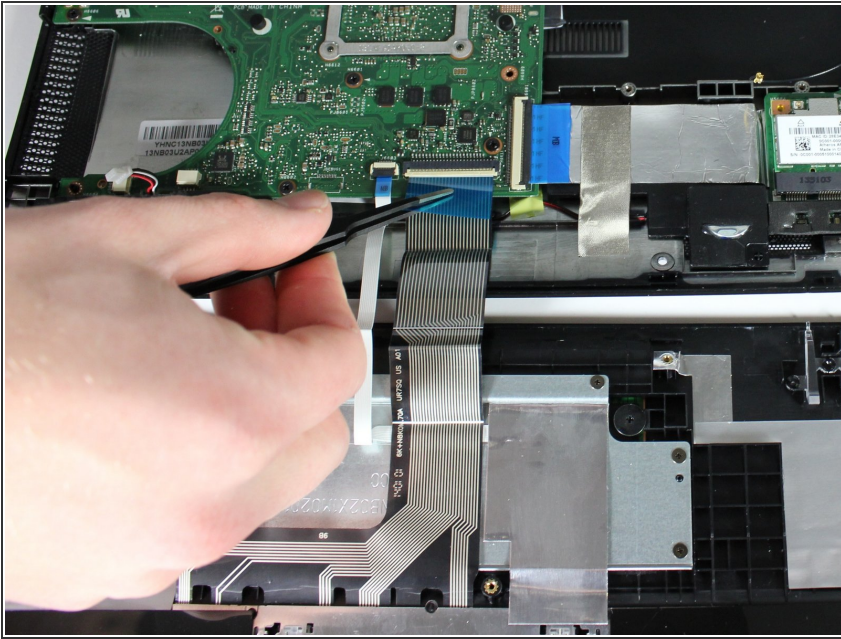

Step 3 — Trackpad

- Use the spudger to lift up and remove the black plastic covering.

Step 4

- Remove thinner white strip by first flipping up black piece at the top of the strip with the tweezers and then pulling it out.
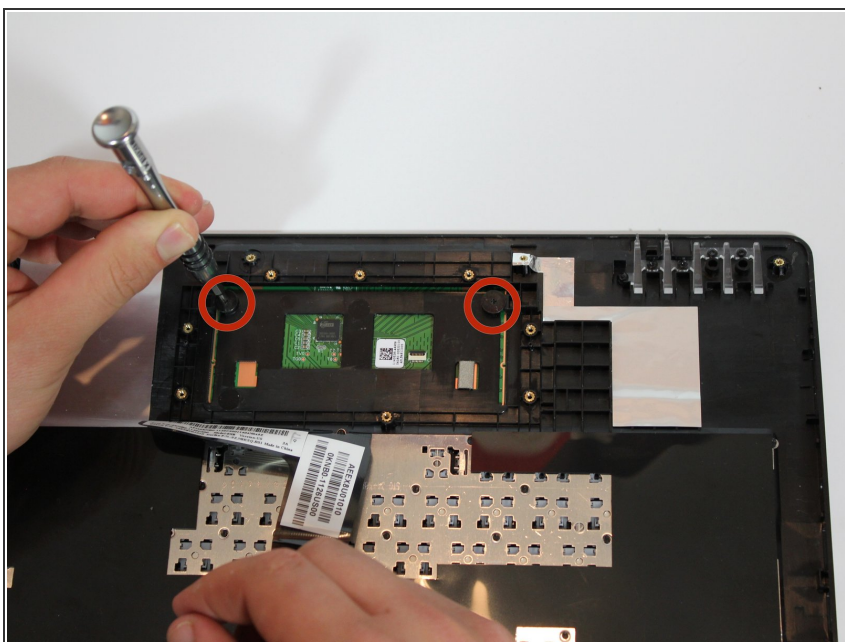

Step 5 — Mouse

- Remove wider blue strip with tweezers.

Step 6

- Remove the following eight screws:
  - Eight 3 mm screws using Phillips #0 screwdriver.

Step 7

- Remove the following two screws after lifting metal plate off:
  - Two 2 mmm screws using a Phillips #0 screwdriver.

Step 8

- Use metal spudger to get in between mouse pad and keyboard and lift off.

To reassemble your device, follow these instructions in reverse order.
