Step 1 — Locate the release button.

- Look for the release button on the back of the radio.

- Press the button and pull down on the battery at the same time. The battery will come free.

Step 2 — Antenna

- Twist the antenna counter-clockwise to unscrew it from the antenna jack.

Step 3 — Dials

- Pull up on the dials to remove them from the underlying pegs.
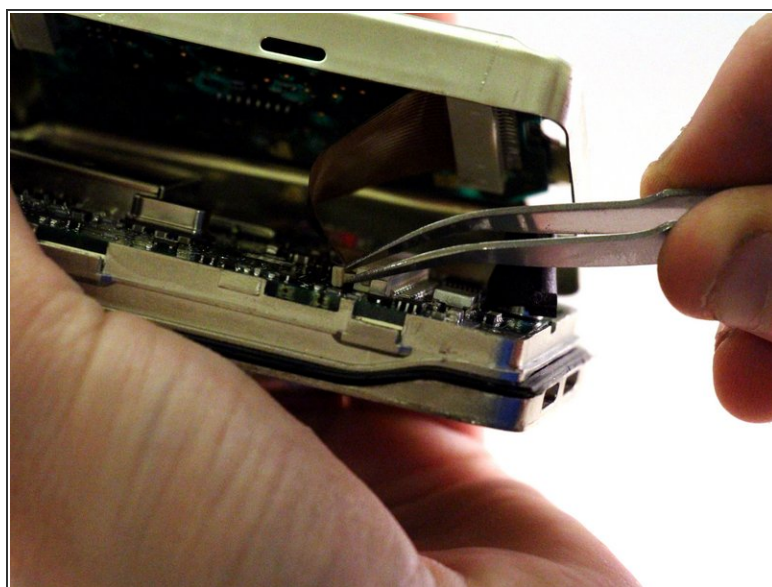

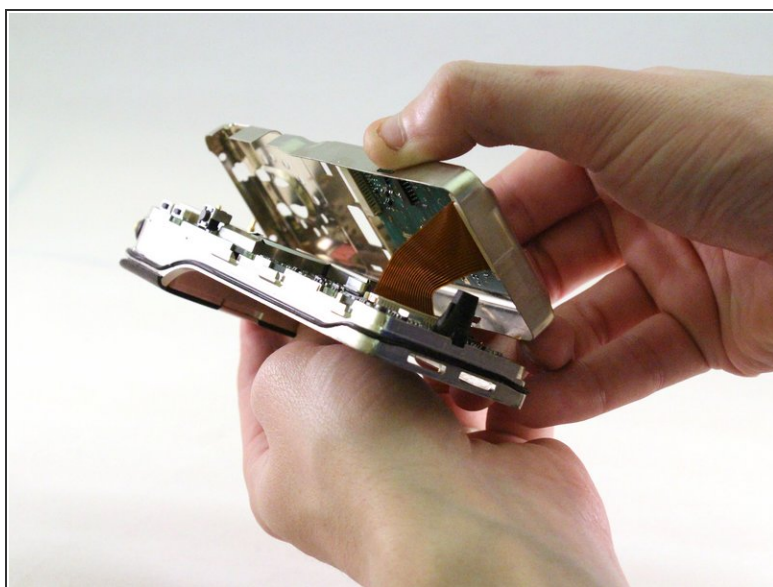

Step 4 — Exterior Case

- Using a T15 Torx screwdriver, unscrew the two screws.

- Using a plastic opening tool, pry the internal case from the external case.

Step 5 — Front Case - Internal

- Using the plastic opening tool, pry the case apart.

Step 6 — Ribbon

- (i) The keypad chip is attached to the motherboard by a ribbon.

- Pull ribbon with tweezers to detach from back panel.

Step 7 — Screen

ⓘ Screen will be attached by a ribbon.

● Pull screen up and away from motherboard to detach.

To reassemble your device, follow these instructions in reverse order.
