

# Nikon Coolpix L810 Battery Replacement

If your camera is not turning on or reacting to...

Written By: Emilio Mena

## INTRODUCTION

If your camera is not turning on or reacting to anything you do, follow this guide on how to change the batteries.

### PARTS:

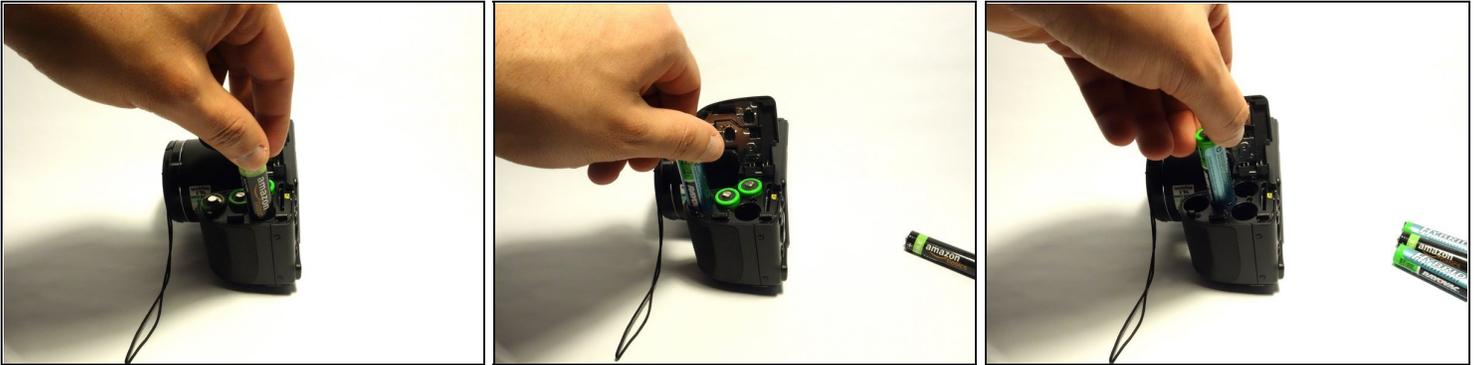

[AA Battery](#) (4)

### Step 1 — Battery

- Orientate the camera so that the lens is pointing left. The battery door is located on the bottom of the camera.
- To unlock the battery door slide the switch on the battery door to the right.
- Slide the battery door towards you and lift to open.

## Step 2

- Remove four AA batteries one by one from the camera, making note of the proper alignment.
- 

To reassemble your device, follow these instructions in reverse order.
