Skytex SP728 Case Replacement

This guide will show users how to replace the back case of the device.

Written By: Michelle Strickland

INTRODUCTION

How to remove the back case of the tablet.

🔧 TOOLS:

- iFixit Opening Tools (1)
- Phillips #00 Screwdriver (1)

Step 1 — Case

- Make sure the device is powered off

- Rotate the device so the ports and screws face you

Step 2

- Using a small phillips screwdriver, unscrew both end screws

Step 3

- Using a plastic opening tool, work your way around the edge of the device, separating the case from the rest of the device

Step 4

- Once the case has been loosened, pry the backing off gently with your hands.

⚠ Make sure to remove the case gently as extra force can break the clasps or the case itself.

To reassemble your device with a new case, follow these instructions in reverse order.
