## Step 1 — Remote Control Casing

**⚠** Take care when handling components. Circuit boards, soldering points, and other areas may have sharp points.

- Remove the battery cover.
- Remove the two AA batteries.

## Step 2

- Insert flat edge of spudger into seam between the top and bottom halves of the remote control.
- Gently twist the spudger to separate the top and bottom halves of the remote.

## Step 3

- Gently use the spudger to pry the circuit board loose.

## Step 4

- Using either end of the spudger, gently lift and remove the clear keypad backing.

## Step 5

- Using either end of the spudger, lift and remove the rubber keypad.

## Step 6 — Remote Battery Terminal

- Desolder the contacts for the battery terminals.
- Remove the battery terminals from the circuit board.
