

# Uniden D1483-3BK Circuit Board/Screen Replacement

This guide gives step by step instructions on how to replace the circuit board/screen of a Uniden D1483-3BK handset.

Written By: Arbitrary Name

---

## INTRODUCTION

To complete this guide you will have to disassemble the handset and use a soldering iron to replace the circuit board. Other than the soldering process, the guide steps are medium in difficulty to complete. After completing this guide, users should have a fully operating, handset circuit board and screen.

### TOOLS:

- [Phillips #1 Screwdriver](#) (1)
  - [iFixit Opening Tools](#) (1)
  - [Soldering Iron](#) (1)
  - [Solder](#) (1)
  - [Desoldering Braid](#) (1)
-

## Step 1 — Battery

- Set the phone with dial keys facing downward.

## Step 2

- Slide the battery cover toward the bottom of the phone.
- Lift and remove the back cover from the phone.

### Step 3

- Remove the battery from its compartment.
- Pinch the end of cord where the battery is attached to the phone and pull up gently.

### Step 4 — Handset Case

- Remove the two 9mm Phillips #1 screws in the battery compartment.

## Step 5

- Use the plastic opening tool to carefully separate the two halves of the case.
  - Slowly work around the entire case to fully separate the halves before pulling them apart.
- ⚠ Wires inside the case hold the two halves together, tearing these wires will lead to a need for additional repair.

## Step 6

- Carefully remove the 9mm Phillips #1 screw from the top corner of the circuit board.

## Step 7

- Carefully grasp either side of the circuit board and lift it straight out of the front half of the case.
- Set the board in the lower half of the case.

## Step 8 — Circuit Board/Screen

- Set the circuit board on the table with the screen facing down.

## Step 9

- Using the desoldering braid and soldering iron, remove the solder around the cable for the speaker.
- ★ When installing the new board, use the soldering iron and solder to reattach the speaker cables.

To reassemble your device, follow these instructions in reverse order.
