

Samsung Gusto 2 Speaker Replacement

Speaker replacement and the connections for the speaker.

Written By: Michael Huang

TOOLS:

- [Spudger](#) (1)
 - [Tweezers](#) (1)
 - [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Speaker

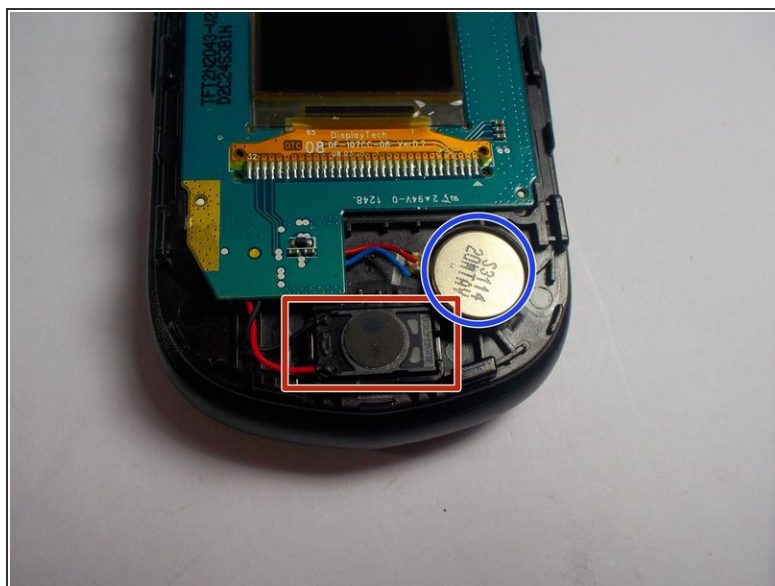

- Flip open the phone as shown in picture 1.
- Remove the two screws highlighted in picture 1.

Step 2

- Take your spudger and forcefully insert it between the black and silver part of the phone.
- Once the spudger is successfully wedged in between these two pieces, circle the frame of the phone.

Step 3

- The phone should be exposed like picture 1 once the case was removed.
- The highlighted sections correspond to the bullet colors. To replace either simply disconnect the wires attached, and lift the piece off.
- Speaker Component
- Vibration Component

To reassemble your device, follow these instructions in reverse order.
