

# Vivitar Vivicam T027 Lens Replacement

You will need a set of tweezers, a Phillips #00...

Written By: Nicole Knoebel

## INTRODUCTION

You will need a set of tweezers, a Phillips #00 screwdriver and a Phillips #000 screwdriver to replace your camera's lens.

---

### TOOLS:

Phillips #00 Screwdriver (1)

Phillips #000 Screwdriver (1)

Tweezers (1)

---

### Step 1 — Lens

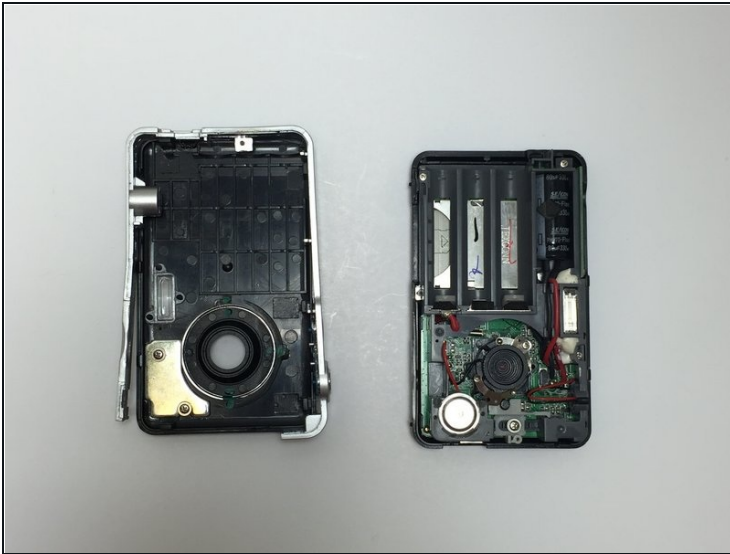

- Use a Phillips #00 screwdriver to remove the 3 mm screws at the sides of the camera.

## Step 2

- Remove sticker on top of camera as it covers a screw.
- ① There are 5 screws to remove in total on the sides of the camera.

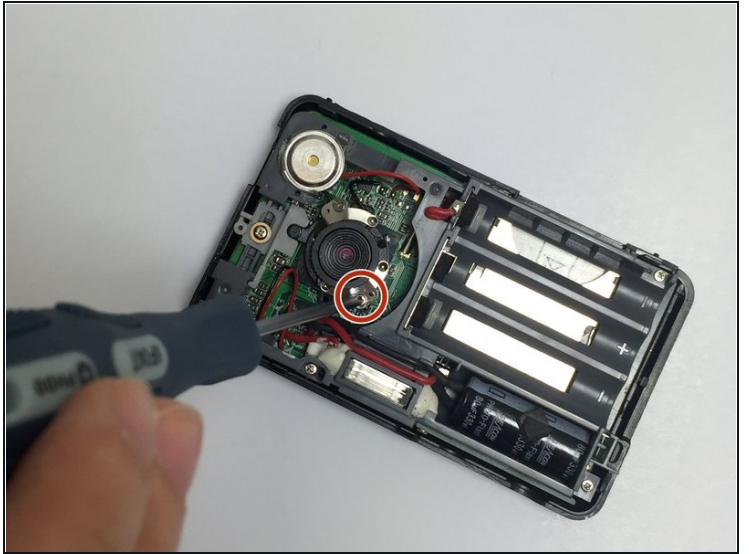

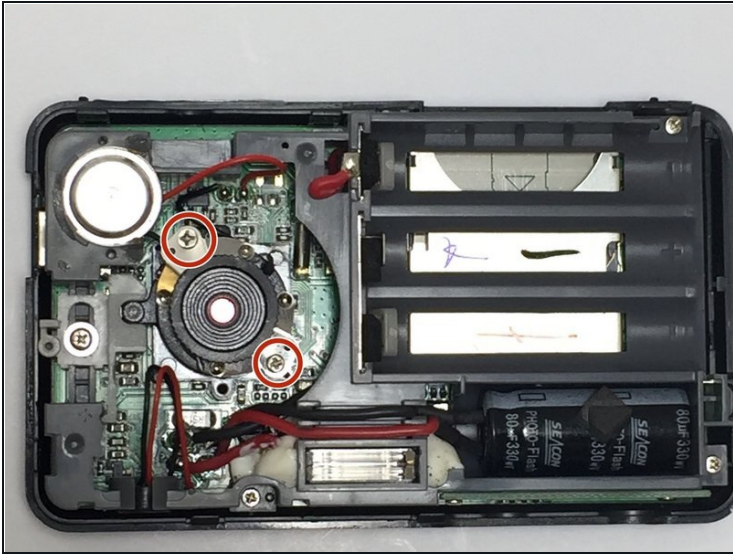

## Step 3

- Separate the front piece of the camera from the back, revealing the motherboard.

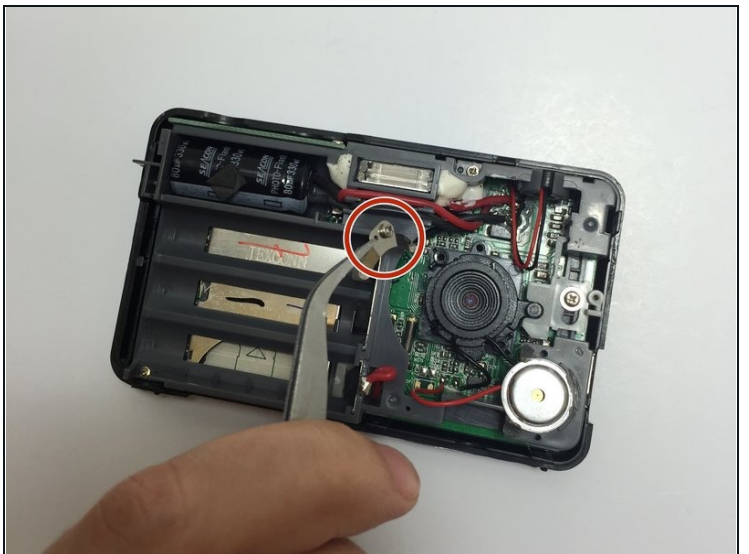

## Step 4

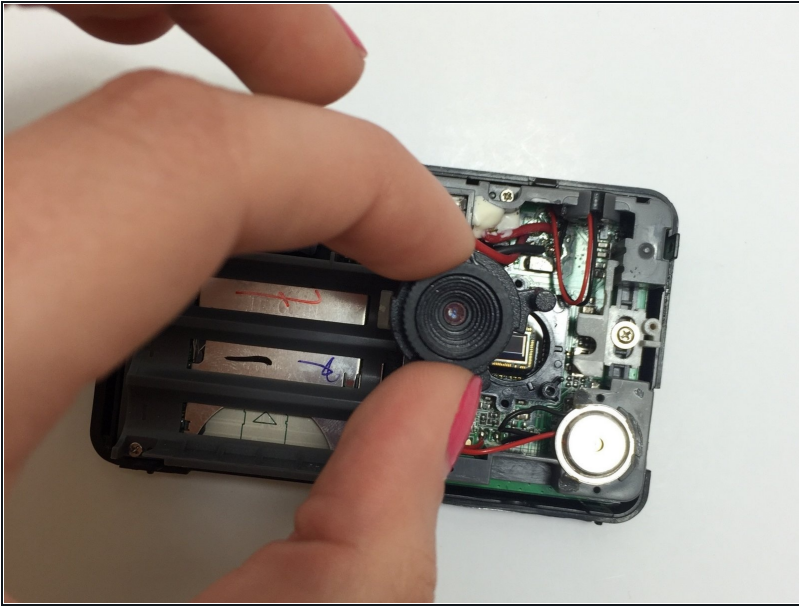

- Use a Phillips #000 screwdriver to remove the two 2.3 mm screws that surround the lens.

## Step 5

- Remove the two silver plates using [tweezers](#).

## Step 6

- Remove the black lens carefully with your fingers.

---

To reassemble your device, follow these instructions in reverse order.
