

# **Vtech Innotab 3 Headphone Port Replacement**

If there is no sound coming from headphones when connected to the headphone port it may need to be replaced.

Written By: Zach Diviney

## **INTRODUCTION**

In order to replace the headphone port grab yourself a PH00 screwdriver, a metal spudger, and a soldering kit.

• Before you begin disassembling the Vtech InnoTab 3, turn on your soldering iron. If working with others let them know that the soldering iron is on and to use caution.

## **TOOLS:**

- Phillips #00 Screwdriver (1)
- Spudger (1)
- Tweezers (1)

#### Step 1 — Rear Panel

- Slide the battery compartment door lock down.
- While still holding the battery compartment lock down, slide the two battery doors outwards on either side of the device.
- Carefully remove the batteries from the battery compartment.
- (i) The standard option for the InnoTab 3 is four AA batteries. Vtech also offers a rechargeable battery online, but both battery options are removed from the device the same way.

#### Step 2

 Remove the six 7.6mm screws found in the battery compartment using a PH00 screwdriver.

## Step 3

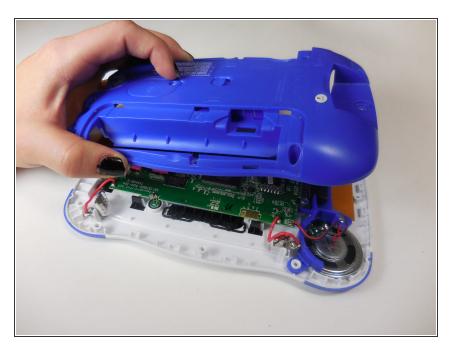

- (i) There are three hidden screws on the back of the device, two at the top and one near the bottom.
- Using a nylon or metal spudger, remove the three caps that hide the screws.
- Remove the 5mm screw near the bottom and the two 7.6mm at the top using a PH00 screwdriver.

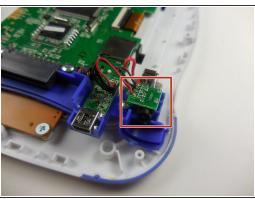

# Step 4

 Carefully separate the back panel from the front panel revealing the motherboard connected to the front panel.

#### Step 5 — Headphone Port

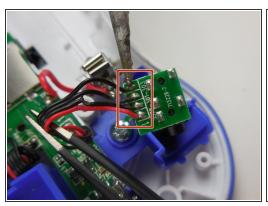

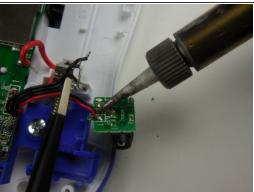

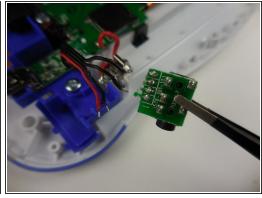

- On the front panel of the device, the headphone poet is located at the bottom right corner of the device, opposte of the speaker.
- Using tweezers, lift up to remove the headphone port from its holding.
- Be careful not to tug too hard when removing the headphone port for you may disconnect the wires from the solder

#### Step 6

- Use tweezers to hold the four connecting wires away from the headphone port.
- Desolder the four wires connected to the headphone port.
- This is a tricky step. Refer to this guide to learn how to solder: How To Solder and Desolder Connections

To reassemble your device, follow these instructions in reverse order.
