INTRODUCTION

This guide provides instructions on how to replace the front-facing camera on a Xelio P900A-BK.

🔧 TOOLS:

- 5mm Nut Driver (1)
- iFixit Opening Tools (1)
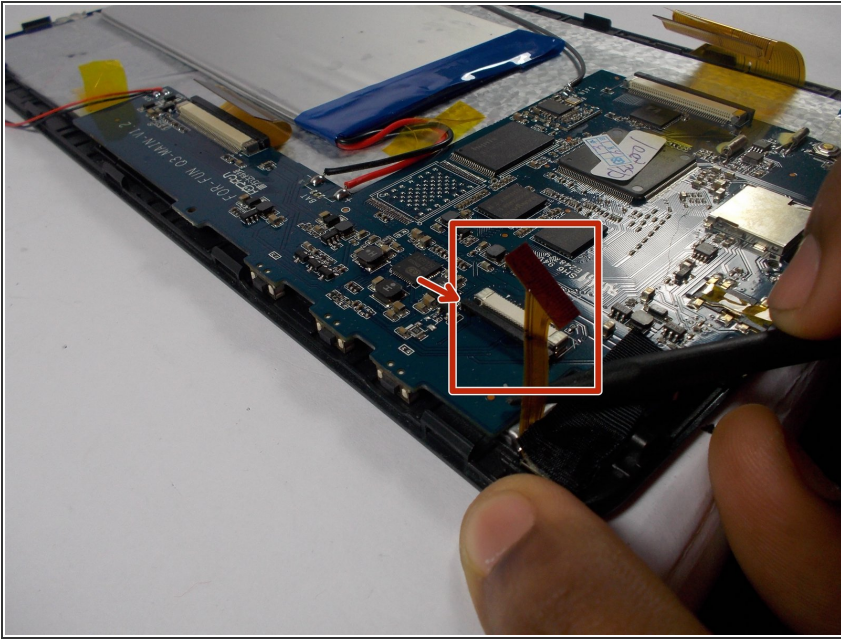

Step 1 — Front Facing Camera

- Remove the two 5.4mm bottom screws.
- Set aside.

Step 2

- Insert a plastic opening tool between the screen and the rear case and carefully pry the tablet open.
  - Gently work your way around the entire tablet and do not force the case open prematurely.
  - ⓘ You will hear the plastic latches pop free.

Step 3

- Remove the connection between the camera and the motherboard.

- Open the black ribbon holder then remove the ribbon from its connection.

Step 4

- Remove the tape covering the front facing camera entirely to expose one of the motherboard screws.

Step 5

- Use the smaller plastic opening tool to remove the camera from its socket.

To reassemble your device, follow these instructions in reverse order.
