

HP Compaq 6710b Battery Replacement

This guide will show you how to replace the battery!

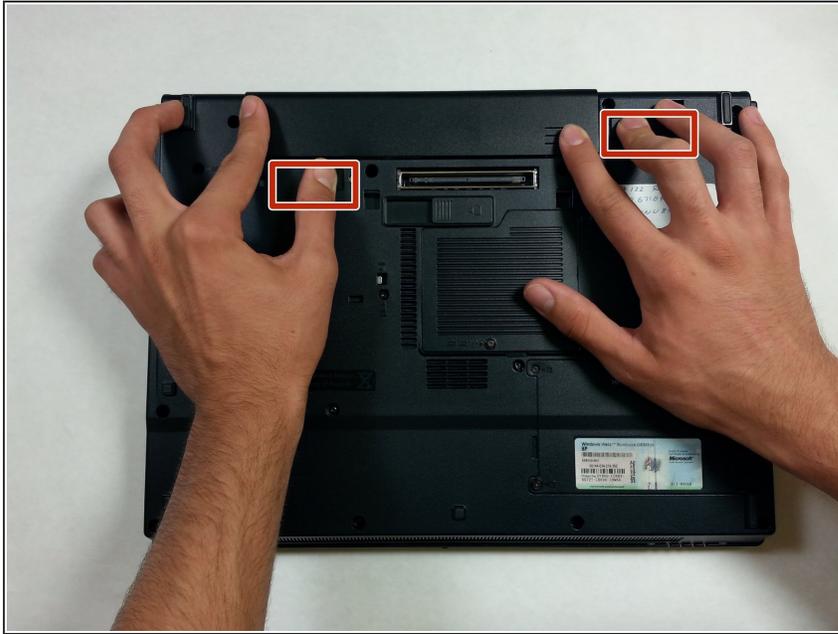

Written By: Khulan Orgil

INTRODUCTION

Replacing the battery is a prerequisite to many other replacements. Also make sure the computer is off before trying to open it up!

Step 1 — Battery

⚠ Turn off your computer! Taking out the battery while it's still on is dangerous!

- Flip the laptop over to the back.
- Using two hands, push on the tabs while gently taking out the battery.

To reassemble your device, follow these instructions in reverse order.
