

## BRCK v1 Antenna Replacement

Using a pair of tweezers, you will be able to...

Written By: Cory Ihnotic

## INTRODUCTION

Using a pair of tweezers, you will be able to remove and replace the antenna.

---

### TOOLS:

[Tweezers](#) (1)

---

### Step 1 — Antenna

- Stand the device on its side so the antenna is sitting on the top.

## Step 2

- Use the [tweezers](#) to grip the neck of the antenna(the part closest to the device).
- Use opposite hand to twist off the body of the antenna.

---

To reassemble your device, follow these instructions in reverse order.
