Step 1 — Latch Side Cover

- Remove the two 3mm (1/8") black screws from the side cover using a #00 Phillips screwdriver.

Step 2

- On the bottom, remove the 6mm (13/64") screw with the #00 Phillips Screwdriver.

- Pry up the panel; starting from the front/bottom corner, as indicated.
  - There's a concealed lip, under the opposite edge.

Step 3 — Disassembling Canon EOS Rebel XS Front Cover

- Remove three medium length screws from the bottom of the camera
Step 4

- Remove the two medium length screws on the front panel of the camera above the lens mount.

- Once you done, you may use the Spudger to panel from non-grip side.

- ⓘ If you start on the grip side, it will be more challenging to loosen the panel.

Step 5 — Back Cover

- Remove the three long black screws from the bottom using a #00 Phillips screwdriver.

- Use tweezers to lift the panel.

Step 6

- Once you have detached the back cover, use a pair of tweezers to lightly pull on strap found connecting the back cover to the camera.

Step 9

- Remove the two 5mm (.20in) long silver screws securing the grip to the camera using a #00 Phillips screwdriver.

Step 10

- Use the spudger tool to carefully pry the grip from the rest of the camera.
Step 11

- Once the grip is loose, use your fingers to remove it from the camera.
Step 12 — Eyepiece

- Grasp the eyepiece with your fingers and slide upwards to remove it.

Step 13 — Top Panel

- Remove the following ribbons with the tweezers by gently pulling on them.

- Remove the three black screws, near the eye piece, using the Phillips Screwdriver.

Step 14

- Remove the cable heads attached on the front side of the camera next to the lens mount.

⚠ Be gentle when puling wires lose, use the tweezers to remove the wires.
Step 15

- You can use your fingers to pull the top panel of the camera.

Step 16 — Strap Loops

- Remove the two 5.0mm (.20in) silver screws from the first loop hole using a #00 Phillips screwdriver (Picture Two).

- Remove the 6.8mm (.27in) wide head silver screw from the second loop hole using a #00 Phillips screwdriver (Picture Three).
