INTRODUCTION

The Panasonic ER-GN30-K contains a easy clean system which includes a a ring which allows water to pass through the trimmer to clean out debris. This ring can be left closed when trimming and then twisted open when cleaning.

TOOLS:

- Metal Spudger (1)

Step 1 — Water Pass-through Ring

- Remove the dark transparent cap by gently pulling on it.

Step 2

- Remove the black trimmer cap from the top of the device by gently pulling it.
