- iFixit Opening Tools (1)
- Phillips #1 Screwdriver (1)

#### Step 1 — Speakers

 Place the device face down on a flat surface, so that the screws on the back are facing the ceiling.

## Step 2

 Using a screwdriver loosen the four screws connecting the body of the device together.

## Step 3

 Once unscrewed, pop the back of the device off using the plastic opening tool.

## Step 4

 Take the back of the body and put it aside. We will be working with the back part of the device.

## Step 5

 Remove the rubber button by popping it out with the plastic opening tool.

## Step 6

 Loosen the screw on the chip with a screwdriver.

## Step 7

 Once the chip is off, loosen the screws on the plastic enclosing the speakers.

## Step 8

 Using the plastic opening tool, pop the plastic enclosing off.

To reassemble your device, follow these instructions in reverse order.
