

Kyocera Zio M6000 Battery Replacement

A quick and easy how-to guide for replacing the battery.

Written By: Scott Nguyen

INTRODUCTION

If battery power is draining too quickly, or if it is unable to hold a charge altogether, it's time to replace the battery. The task is simple and straightforward, with minimal tools required. Follow this guide to replace the battery for your Kyocera Zio M6000.

TOOLS:

- [Spudger](#) (1)
-

Step 1 — Battery

- Press down on the back of the phone, applying moderate pressure.
- Slide the back casing down to separate it.

Step 2

- Remove the back casing to expose the battery.
- Use a plastic spudger to lift the battery out using the battery's groove on its top left corner.

To reassemble your device, follow these instructions in reverse order.
