INTRODUCTION

By following this guide one is able to access the inside of the Skytex Skypad Alpha 2 tablet in four steps. These steps include locating and unscrewing the screws that are found at the sides of the tablet and using a plastic opening tool to separate the back case from the tablet and replace if necessary.

TOOLS:

- iFixit Opening Tools (1)
- Phillips #000 Screwdriver (1)

This document was generated on 2020-11-28 04:39:55 AM (MST).
Step 1 — Back Cover

- Power off the tablet.

⚠ Unplug the tablet from the power source if it is connected.

Step 2

- Remove the (4) 3.5mm screws using a phillips #000 screwdriver.

Step 3

- Use the plastic opening tool to work your way around the tablet, releasing the back case from the tabs.

Step 4

- Release the back case from the rest of the tablet with your hand.

⚠️ Do not pry the case too hard; doing so can damage the tablet.

To reassemble your device, follow these instructions in reverse order.
