

# Lenovo Yoga 2 11" Speakers Replacement

Written By: Peyton Leeson

---

 **TOOLS:**

T5 Torx Screwdriver (1)  
Magnetic Project Mat (1)  
Phillips #0 Screwdriver (1)  
Tweezers (1)

 **PARTS:**

90204930 - Lenovo Yoga 2 11" Speaker Replacement (1)

---

## Step 1 — Back Panel

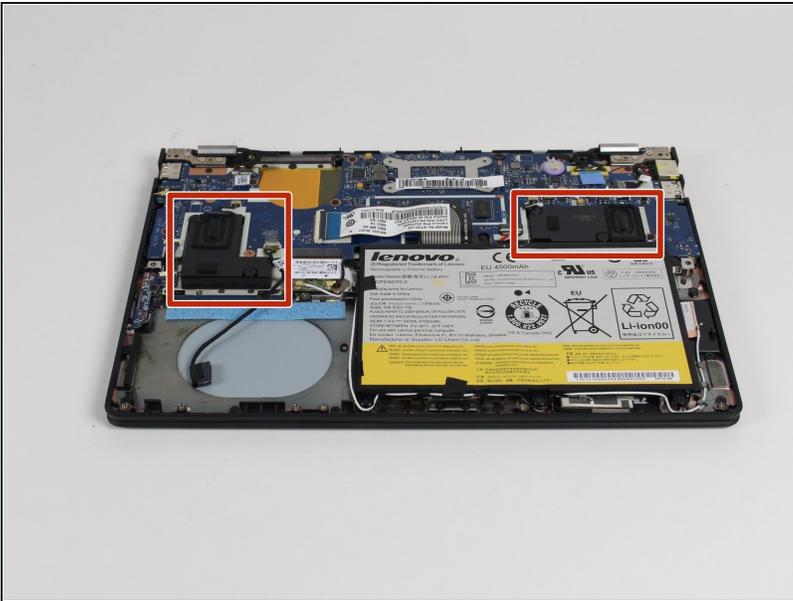

- With a T5 Torx screwdriver, remove ten 6.35 mm screws from the back of the laptop.

## Step 2

- Carefully separate back panel from laptop.

## Step 3 — Speakers

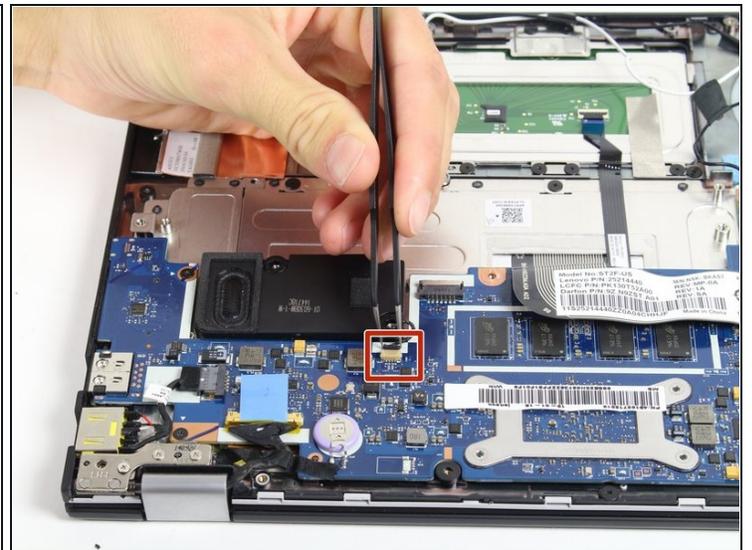

- Once you complete the prerequisite guide, locate the two speakers.

## Step 4

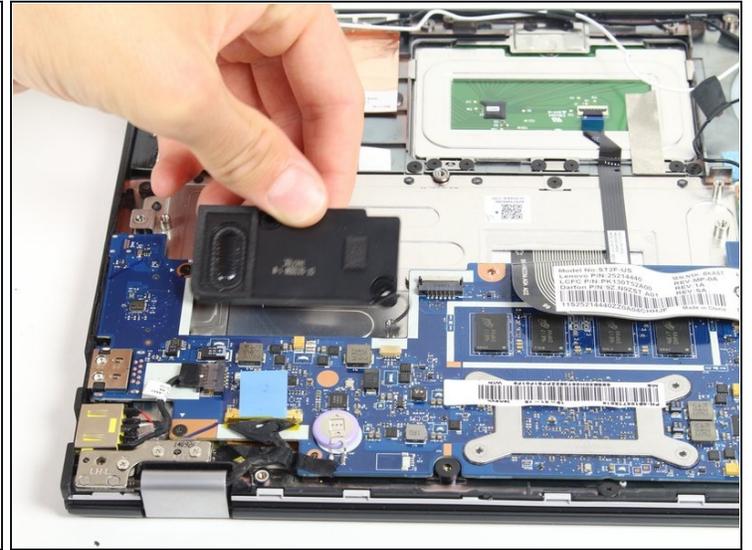

- Using a Philips 00 Screwdriver, remove the four 4.762mm screws that hold the speakers in place (two for each speaker).

## Step 5

- Locate and carefully detach the clips that connect each speaker to the computer.

## Step 6

- Now that the speakers are completely free from the computer, you are able to remove each speaker and replace it.

---

To reassemble your device, follow these instructions in reverse order.
