INTRODUCTION

This is a replacement guide on how to replace your back camera unit on your LG Optimus F3.

## 🔧 TOOLS:

- iFixit Opening Tools (1)
- 64 Bit Driver Kit (1)
- Tweezers (1)

This document was generated on 2020-12-04 11:18:02 AM (MST).

Step 1 — Back Camera

- Remove the battery cover. Unsnapping each corner will allow the cover to come off.

Step 2

- Unscrew the ten 1.0 mm screws on the back.

Step 3

● Separate the rear plastic case by inserting the opening tool between the seams on all sides.

Step 4

● Located at the top left corner is the camera unit.

This document was generated on 2020-12-04 11:18:02 AM (MST).

Step 5

- Use a plastic opening tool to detach the connector between the back camera and the motherboard.

Step 6

- Use the tweezers to remove the camera by pinching the sides and carefully pulling up.

Step 7

- There you go !

To reassemble your device, follow these instructions in reverse order.
