Coolpix S01 USB Cover Replacement

Written By: Fernando Ochoa
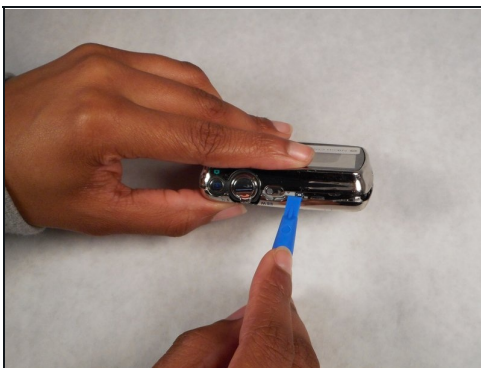

Step 1 — USB Cover

- First make sure the camera is powered off.

- Use the Hex and PH000 tool to remove the 2 mm screw from the left side of the camera.

- Next remove the 2 mm screw from the right side of the camera.

Step 2

- Remove the 3mm screw from the bottom of the camera.

- Once you have the 2mm and 3mm screws out, gently pull the sides up with the smallest plastic opening tool. This will reveal the inside of the camera.

⚠️ Be sure to remove the battery before continuing your repair.

Step 3

- On the bottom of the camera, locate the USB port.

- Gently slide the USB cover off of the camera with your fingers or tweezers.

- You can replace the USB cover by purchasing one from a local electronics store or online at iFixit.com.

To reassemble your device, follow these instructions in reverse order.
