INTRODUCTION

In this guide we will show you how to remove the battery from your Macintosh PowerBook 1400c.

Step 1 — Battery

 Turn the device upside down and then locate the battery latch near the front of the device.

Step 2

 Slide the latch to the left to release the battery.

Step 3

- Continue holding the latch then gently pull the battery out of the device.
- (i) Place the battery in a safe location.

To reassemble your device, follow these instructions in reverse order.
