

Replace fan

Written By: Felice Suglia

 **TOOLS:**

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Battery

- Open the latch on the right side that secures the battery in place.
- Open the latch on the left side that secures the battery in place.
- Now remove the battery.

Step 2 — Main access cover

- Using a Philips-head screwdriver remove highlighted screws.
- Look at the marking to see how to remove the access cover.
- Remove the access cover as shown by the marker.

Step 3

- You now have access to all components of this laptop.

Step 4 — fan

- There is the fan.
- Then pull out the supply cable of the fan.
- Remove the 3 mounting screws of the fan.

Step 5

- Remove the 3 mounting screws of the fan.

To assemble the device again, proceed in reverse order.
