

Leapfrog LeapPad 3 Battery Replacement

To replace the battery you will need a...

Written By: Matt Irvine

INTRODUCTION

To replace the battery you will need a replacement. Once you have the battery, following this guide will lead you to a fully functioning device.

TOOLS:

[iFixit Opening Tool](#) (1)

[Phillips #0 Screwdriver](#) (1)

[Anti-Static Wrist Strap](#) (1)

Step 1 — Battery

- Before taking apart your device, ensure that it is turned off and that your [anti-static wrist strap](#) is secured to a ground.
 - Remove the six 10.0 mm Phillips #0 screws from the outer case and remove the cover with your hands.
-  You will not need to pry the case off.

Step 2

- Unplug the battery from the motherboard with your hands.
- ⓘ The battery sits to the right of the motherboard.

Step 3

- Pry the battery gently off of the plastic platform with an opening tool.
- ⚠ Do not to puncture the battery, as the material inside can be dangerous.

To reassemble your device, follow these instructions in reverse order.
